INDEX TO VOLUME 134

Subject Index*

A

Abnormalities
Increased TSH levels in neonates with congenital malformations (Narchi and Kulaylat). 1999;134:252-3 (Letter)

Abscess
Splenic abscess in a patient with type 3 Gaucher's disease receiving enzyme replacement therapy (Maclean and Wilson). 1999;134:245-7 (CLO)

Acetates
Adrenal suppression in children with the human immunodeficiency virus treated with megestrol acetate (Stockheim et al). 1999;134:368-70 (CLO)

Acidosis, lactic
The importance of cerebrospinal fluid lactate in the evaluation of congenital lactic acidosis (Stacpoole et al). 1999;134:99-102 (CLO)

Acne vulgaris
Toddler-age nodulocystic acne (Mengesha and Hansen). 1999;134:644-8 (CLO)

Acquired immunodeficiency syndrome
The effects of zidovudine in the subset of infants infected with human immunodeficiency virus type-1 (Pediatric AIDS Clinical Trials Group Protocol 076) (McSherry et al). 1999;134:717-24

Acyl carnitine; *see* Carnitine

Acyl-coenzyme A dehydrogenase; *see* Fatty acid desaturases

Adenosine cyclic monophosphate
Prognostic significance of cerebrospinal fluid cyclic adenosine monophosphate in neonatal asphyxia (Pourcyrous et al). 1999;134:90-6

Adenovirus infections
Lung function in infants with chronic pulmonary disease after severe adenoviral illness (Teper et al). 1999;134:730-3

Adhesion molecules; *see* Cell adhesion molecules

Administration, cutaneous
Transdermal fentanyl in children with cancer pain: feasibility, tolerability, and pharmacokinetic correlates (Collins et al). 1999;134:319-23

Administration, inhalation
Effect on growth of inhaled steroid therapy (Brand and Roorda). 1999;134:253 (Letter)
Efficacy and safety of high-dose inhaled steroids in children with asthma: a comparison of fluticasone propionate with budesonide (Ferguson et al). 1999;134:422-7
Multicenter randomized controlled trial of the effects of inhaled nitric oxide therapy on gas exchange in children with acute hypoxemic respiratory failure (Dobyns et al). 1999;134:406-12
Nitric oxide in acute hypoxic respiratory failure: from the bench to the bedside and back again (Bohn). 1999;134:387-9 (Editorial)
NO effect on hemostasis (Cheung et al) (Letter); (George and Segar) (Reply). 1999;134:383-4

Administration, oral
Oral prednisolone is an effective adjuvant therapy for acute otitis media with discharge through tympanostomy tubes (Ruohola et al). 1999;134:459-63

Administration, topical
Topical nitroglycerin and pain in purpura fulminans (Meyer et al). 1999;134:639-41 (CLO)

*January, pp. 1-126; February, pp. 127-254; March, pp. 255-386; April, 387-526, May, pp. 527-664; June, pp. 665-828.

Adolescence
Advanced glycation end products in children and adolescents with diabetes: relation to glycemic control and early microvascular complications (Chiarelli et al). 1999;134:486-91
Cholestatic jaundice with skin desquamation in a 12-year-old girl (Stutts et al). 1999;134:649-53 (Grand rounds)
Is there an epidemic of cardiovascular disease on the horizon? (Daniels). 1999;134:665-6 (Editorial)
The natural history of microalbuminuria in adolescents with type 1 diabetes (Gorman et al). 1999;134:333-7
Report of a workshop on the epidemiology, natural history, and pathogenesis of chronic fatigue syndrome in adolescents (Marshall). 1999;134:395-405
Secular trends of blood pressure and body size in a multi-ethnic adolescent population: 1986 to 1996 (Luepker et al). 1999;134:668-74

Adrenal cortex diseases
Adrenal suppression in children with the human immunodeficiency virus treated with megestrol acetate (Stockheim et al). 1999;134:368-70 (CLO)

Adrenal hyperplasia
Cushing's syndrome caused by nodular adrenal hyperplasia in children with McCune-Albright syndrome (Kirk et al). 1999;134:789-92 (CLO)

Adrenal hyperplasia, congenital
Home monitoring of 17 hydroxyprogesterone levels in congenital adrenal hyperplasia with filter paper blood samples (Bode et al). 1999;134:185-9
Home monitoring of 17 hydroxyprogesterone levels: "Throw away the urine jug, Mom, the filter paper just arrived" (Schwartz). 1999;134:140-2 (Editorial)

Advanced glycation end products; *see* Glycosylation end products, advanced

Agammaglobulinemia
Early and prolonged intravenous immunoglobulin replacement therapy in childhood agammaglobulinemia: a retrospective survey of 31 patients (Quartier et al). 1999;134:589-96

Airway obstruction
Respiratory effort with airway closure during mixed apneas (Finer and Barrington) (Letter); (Idiong and Rigatto) (Reply). 1999;134:796-8

Alagille syndrome
Alagille syndrome: a nutritional niche for Notch (Sokol). 1999;134:136-8 (Editorial)

Albumins
The natural history of microalbuminuria in adolescents with type 1 diabetes (Gorman et al). 1999;134:333-7
Scrutinize the question (Ahlfors) (Letter); (Robertson and Karp) (Reply). 1999;134:659

Alcohol drinking
Maternal periconceptional alcohol consumption and risk for orofacial clefts (Shaw and Lammer). 1999;134:298-303

Alkalosis
Transient hypokalemic metabolic alkalosis in a newborn mimicking Bartter's syndrome (Voyame et al). 1999;134:794 (Letter)

Allergy, food; *see* Food hypersensitivity

Alopecia
Celiac disease–associated alopecia in childhood (Naveh et al). 1999;134:362-4 (CLO)

Alpha tocopherol; *see* Vitamin E

Alveolar capillary dysplasia
Alveolar capillary dysplasia: an emerging syndrome (Thibeault et al) (Letter); (Buchino et al) (Reply). 1999;134:661

Aminoglycosides
Comparison of a β-lactam alone versus β-lactam and an aminoglycoside for pulmonary exacerbation in cystic fibrosis (Smith et al). 1999;134:413-21

Analgesia
Advantages of fentanyl over morphine in analgesia for ventilated newborn infants after birth: a randomized trial (Saarenmaa et al). 1999;134:144-50

Analgesia—cont'd
Narcotic analgesia for ventilated newborns: Are placebo-controlled trials ethical and necessary? (Kennedy and Tyson). 1999;134:127-9 (Editorial)
Anemia
Congenital mesoblastic nephroma: a rare cause of perinatal anemia (Willert et al). 1999;134:248 (Insights)
Anemia, sickle cell
Postsplenectomy course in homozygous sickle cell disease (Wright et al). 1999;134:304-9
Anoxemia
Alveolar capillary dysplasia: an emerging syndrome (Thibeault et al) (Letter); (Buchino et al) (Reply). 1999;134:661
Anoxia
Multicenter randomized controlled trial of the effects of inhaled nitric oxide therapy on gas exchange in children with acute hypoxemic respiratory failure (Dobyns et al). 1999;134:406-12
Nitric oxide in acute hypoxic respiratory failure: from the bench to the bedside and back again (Bohn). 1999;134:387-9 (Editorial)
Anthropometry
Blood lead concentration and children's anthropometric dimensions in the Third National Health and Nutrition Examination Survey (NHANES III), 1988-1994 (Ballew et al). 1999;134:623-30
Anti-D immune globulin; *see* Immunoglobulins, intravenous
Antibiotics
Fixed drug eruptions in children (Morelli et al). 1999;134:365-7 (CLO)
Antibodies
Antiperinuclear factor and antibodies to the stratum corneum of rat esophagus in juvenile idiopathic arthritis (Serra et al). 1999;134:507-9 (CLO)
IgA antibodies to tissue transglutaminase: an effective diagnostic test for celiac disease (Troncone et al). 1999;134:166-71
Serologic testing for inflammatory bowel disease (Hoffenberg et al). 1999;134:447-52
Tissue transglutaminase: The Holy Grail for the diagnosis of celiac disease, at last? (Fasano). 1999;134:134-5 (Editorial)
Antioxidants
Comparison of serum concentrations of α-tocopherol and β-carotene in a cross-sectional sample of obese and nonobese children (NHANES III) (Strauss). 1999;134:160-5
Relative antioxidant deficiency in obese children: A weighty contributor to morbidity? (Lavine). 1999;134:132-3 (Editorial)
Antiperinuclear factor
Antiperinuclear factor and antibodies to the stratum corneum of rat esophagus in juvenile idiopathic arthritis (Serra et al). 1999;134:507-9 (CLO)
Aortic valve stenosis
Longitudinal evaluation of growth, puberty, and bone maturation in children with Williams syndrome (Partsch et al). 1999;134:82-9
Apnea
Respiratory effort with airway closure during mixed apneas (Finer and Barrington) (Letter); (Idiong and Rigatto) (Reply). 1999;134:796-8
Arteries
Spontaneous arterial thrombosis in children (Streif et al). 1999;134:110-2 (CLO)
Arthritis
Antiperinuclear factor and antibodies to the stratum corneum of rat esophagus in juvenile idiopathic arthritis (Serra et al). 1999;134:507-9 (CLO)
Autosomal dominant granulomatous disease of childhood (Rotenstein and Gibbas) (Letter); (Ting) (Reply). 1999;134:663-4
Joint distribution at presentation in children with pauciarticular arthritis (Sharma and Sherry). 1999;134:642-3 (CLO)
Arthritis, juvenile rheumatoid
The relationship of hepatotoxic risk factors and liver histology in methotrexate therapy for juvenile rheumatoid arthritis (Hashkes et al). 1999;134:47-52
Ascorbic acid
Respiratory chain complex in deficiency with pruritus: a novel vitamin responsive clinical feature (Mowat et al). 1999;134:352-4 (CLO)
Aspartylglycosaminuria
Excessive infantile growth and early pubertal growth spurt: typical features in patients with aspartylglycosaminuria (Arvio et al). 1999;134:761-3 (CLO)
Asphyxia neonatorum
Prognostic significance of cerebrospinal fluid cyclic adenosine monophosphate in neonatal asphyxia (Pourcyrous et al). 1999;134:90-6
Transient neonatal cholestasis and perinatal asphyxia (Vajro et al). 1999;134:795 (Letter)
Aspirin
High-dose aspirin in Kawasaki disease (Shulman) (Letter); (Saphyakhajon and Greene) (Reply). 1999;134:523-4
Asthma
Effect on growth of inhaled steroid therapy (Brand and Roorda). 1999;134:253 (Letter)
Efficacy and safety of high-dose inhaled steroids in children with asthma: a comparison of fluticasone propionate with budesonide (Ferguson et al). 1999;134:422-7
Ethical issues of placebo-controlled trials (Ferdman and Church) (Letter); (Shapiro) (Reply). 1999;134:251-2
The leukotriene D_4-receptor antagonist zafirlukast attenuates exercise-induced bronchoconstriction in children (Pearlman et al). 1999;134:273-9
Leukotriene receptor antagonist treatment of asthma: Are we there yet? (Keresmar). 1999;134:256-9 (Editorial)
Ataxia
Treatment of ataxia in isolated vitamin E deficiency caused by α-tocopherol transfer protein deficiency (Schuelke et al). 1999;134:240-4 (CLO)
Ataxia-telangiectasia
Hepatic veno-occlusive disease in ataxia-telangiectasia (Srisiriro-janakorn et al). 1999;134:786-8 (CLO)
Autism
Serum autoantibodies to brain in Landau-Kleffner variant, autism, and other neurologic disorders (Connolly et al). 1999;134:607-13
Autoantibodies
Serum autoantibodies to brain in Landau-Kleffner variant, autism, and other neurologic disorders (Connolly et al). 1999;134:607-13
Azithromycin
Inefficacy of a 3-day course of azithromycin in preventing acute rheumatic fever after group A streptococcal infection (scarlet fever) in an 8-year-old child (Ghirga et al). 1999;134:123-4 (Letter)

B

Bacterial meningitis; *see* Meningitis, bacterial
Bartter's syndrome
Transient hypokalemic metabolic alkalosis in a newborn mimicking Bartter's syndrome (Voyame et al). 1999;134:794 (Letter)
Behçet's syndrome
Behçet's disease in children (Yasui et al) (Letter); (Koné-Paut) (Reply). 1999;134:249-51
Beta carotene; *see* Carotene
Bilirubin
Rebound bilirubin—bounces back (Narchi) (Letter); (Yetman) (Reply). 1999;134:796
Scrutinize the question (Ahlfors) (Letter); (Robertson and Karp) (Reply). 1999;134:659
Biological assay
Estrogen levels in girls with premature thelarche compared with normal prepubertal girls as determined by an ultrasensitive recombinant cell bioassay (Klein et al). 1999;134:190-2

Bisphosphonate; *see* Etidronate disodium
Blood
Blood lead concentration and children's anthropometric dimensions in the Third National Health and Nutrition Examination Survey (NHANES III), 1988-1994 (Ballew et al). 1999;134:623-30
Elevated blood lead levels in children are associated with lower erythropoietin concentrations (Liebelt et al). 1999;134:107-9 (CLO)
Home monitoring of 17 hydroxyprogesterone levels in congenital adrenal hyperplasia with filter paper blood samples (Bode et al). 1999;134:185-9
Home monitoring of 17 hydroxyprogesterone levels: "Throw away the urine jug, Mom, the filter paper just arrived" (Schwartz). 1999;134:140-2 (Editorial)
Blood coagulation
Factor V Leiden and other hypercoagulable state mutations are not associated with osteonecrosis during or after treatment for pediatric malignancy (Kechli et al). 1999;134:310-4
Blood pressure
Is there an epidemic of cardiovascular disease on the horizon? (Daniels). 1999;134:665-6 (Editorial)
Secular trends of blood pressure and body size in a multi-ethnic adolescent population: 1986 to 1996 (Luepker et al). 1999;134:668-74
Bloom syndrome
Growth deficiency and malnutrition in Bloom syndrome (Keller et al). 1999;134:472-9
Blue cohosh; *see* Medicine, herbal
BMI; *see* Body mass index
Body composition
Alagille syndrome: a nutritional niche for Notch (Sokol). 1999;134:136-8 (Editorial)
Growth hormone improves body composition, fat utilization, physical strength and agility, and growth in Prader-Willi syndrome: a controlled study (Carrel et al). 1999;134:215-21
Growth, nutritional status, body composition, and energy expenditure in prepubertal children with Alagille syndrome (Wasserman et al). 1999;134:172-7
Body constitution
Is there an epidemic of cardiovascular disease on the horizon? (Daniels). 1999;134:665-6 (Editorial)
Secular trends of blood pressure and body size in a multi-ethnic adolescent population: 1986 to 1996 (Luepker et al). 1999;134:668-74
Body fat; *see* Fats
Body mass index
BMI: Does it really reflect body fat mass? (Widhalm and Schönegger) (Letter); (Pietrobelli et al) (Reply). 1999;134:522-3
Body temperature regulation
Effect of polyethylene occlusive skin wrapping on heat loss in very low birth weight infants at delivery: a randomized trial (Vohra et al). 1999;134:547-51
Thermal management of the low birth weight infant: a cornerstone of neonatology (Narendran and Hoath). 1999;134:529-31 (Editorial)
Body weight
Body fat determined by skinfold measurements is elevated despite underweight in infants with Prader-Labhart-Willi syndrome (Eiholzer et al). 1999;134:222-5 (CLO)
Relative antioxidant deficiency in obese children: A weighty contributor to morbidity? (Lavine). 1999;134:132-3 (Editorial)
Bone density
Measurement of bone mineral content (Picaud et al) (Letter); (Namgung and Tsang) (Reply). 1999;134:125-6
Bone development
Longitudinal evaluation of growth, puberty, and bone maturation in children with Williams syndrome (Partsch et al). 1999;134:82-9
Spontaneous growth and bone age development in a patient with 17α-hydroxylase deficiency: evidence of the role of sexual steroids in prepubertal bone maturation (Mayer et al). 1999;134:371-5 (CLO)
Bone marrow transplantation
Influence of severe combined immunodeficiency phenotype on the outcome of HLA non-identical, T-cell–depleted bone marrow transplantation—a retrospective European survey from the European Group for Bone Marrow Transplantation and the European Society for Immunodeficiency (Bertrand et al). 1999;134:740-8
Bone resorption
Measurement of bone mineral content (Picaud et al) (Letter); (Namgung and Tsang) (Reply). 1999;134:125-6
Brain
Long-term effects of neonatal hypoglycemia on brain growth and psychomotor development in small-for-gestational-age preterm infants (Duvanel et al). 1999;134:492-8
Neonatal hypoglycemia: a little goes a long way (Cowett). 1999;134:389-91 (Editorial)
Serum autoantibodies to brain in Landau-Kleffner variant, autism, and other neurologic disorders (Connolly et al). 1999;134:607-13
Brain damage, chronic
Classifying brain damage in preterm infants (Paneth). 1999;134:527-9 (Editorial)
Hypothyroxinemia of prematurity and the risk of cerebral white matter damage (Leviton et al). 1999;134:706-11
White matter disorders of prematurity: association with intraventricular hemorrhage and ventriculomegaly (Kuban et al). 1999;134:539-46
Brain injuries
Early detection of periventricular leukomalacia by diffusion-weighted magnetic resonance imaging techniques (Inder et al). 1999;134:631-4 (CLO)
Breast
Estrogen levels in girls with premature thelarche compared with normal prepubertal girls as determined by an ultrasensitive recombinant cell bioassay (Klein et al). 1999;134:190-2
Breast-feeding
Association of atopic diseases with breast-feeding: food allergens, fatty acids, and evolution (Goldman). 1999;134:5-7 (Editorial)
Breast-feeding of allergic infants (Isolauri et al). 1999;134:27-32
Breath tests
Sources of breath hydrogen in infants (Shulman) (Letter); (Brand-Miller) (Reply). 1999;134:659-61
Bronchoconstriction
The leukotriene D_4-receptor antagonist zafirlukast attenuates exercise-induced bronchoconstriction in children (Pearlman et al). 1999;134:273-9
Leukotriene receptor antagonist treatment of asthma: Are we there yet? (Keresmar). 1999;134:256-9 (Editorial)
Budesonide
Efficacy and safety of high-dose inhaled steroids in children with asthma: a comparison of fluticasone propionate with budesonide (Ferguson et al). 1999;134:422-7
Ethical issues of placebo-controlled trials (Ferdman and Church) (Letter); (Shapiro) (Reply). 1999;134:251-2

C

C-reactive protein
C-reactive protein is useful in distinguishing Gram stain–negative bacterial meningitis from viral meningitis in children (Sormunen et al). 1999;134:725-9
Cadaver
The long- and short-term outcome of living-donor liver transplantation (Bucuvalas and Ryckman). 1999;134:259-61 (Editorial)
Pediatric liver transplantation with cadaveric or living related donors: comparative results in 90 elective recipients of primary grafts (Reding et al). 1999;134:280-6
Cancer; *see* Neoplasms
Cardiomyopathy, hypertrophic
Hypertrophic cardiomyopathy in a newborn infant (Gottesman et al). 1999;134:114-8 (Grand rounds)

Cardiovascular diseases
Is there an epidemic of cardiovascular disease on the horizon? (Daniels). 1999;134:665-6 (Editorial)
Secular trends of blood pressure and body size in a multi-ethnic adolescent population: 1986 to 1996 (Luepker et al). 1999;134:668-74
Carnitine
Multiple acyl-coenzyme A dehydrogenase deficiency: diagnosis by acyl-carnitine analysis of a 12-year-old newborn screening card (Poplawski et al). 1999;134:764-6 (CLO)
Carotene
Comparison of serum concentrations of α-tocopherol and β-carotene in a cross-sectional sample of obese and nonobese children (NHANES III) (Strauss). 1999;134:160-5
Relative antioxidant deficiency in obese children: A weighty contributor to morbidity? (Lavine). 1999;134:132-3 (Editorial)
Carotid arteries
Five-year follow-up of neonates with reconstructed right common carotid arteries after extracorporeal membrane oxygenation (Desai et al). 1999;134:428-33
Cartilage-hair hypoplasia; *see* Dwarfism
Cat-scratch disease
Cat-scratch disease encephalopathy: a cause of status epilepticus in school-aged children (Armengol and Hendley). 1999;134:635-8 (CLO)
Catheters, indwelling
True knot in an umbilical venous catheter (Pérez-Martínez et al). 1999;134:113 (Insights)
Celiac disease
Celiac disease–associated alopecia in childhood (Naveh et al). 1999;134:362-4 (CLO)
IgA antibodies to tissue transglutaminase: an effective diagnostic test for celiac disease (Troncone et al). 1999;134:166-71
Tissue transglutaminase: The Holy Grail for the diagnosis of celiac disease, at last? (Fasano). 1999;134:134-5 (Editorial)
Cell adhesion molecules
Changes in adhesion molecule expression on lymphoblasts during acute lymphoblastic leukemia treatment (De Rossi). 1999;134:525-6 (Letter)
Cerebral palsy
Interferons and cerebral palsy (Grether et al). 1999;134:324-32
Cerebral white matter damage; *see* Brain damage, chronic
Cerebrospinal fluid
The importance of cerebrospinal fluid lactate in the evaluation of congenital lactic acidosis (Stacpoole et al). 1999;134:99-102 (CLO)
Prognostic significance of cerebrospinal fluid cyclic adenosine monophosphate in neonatal asphyxia (Pourcyrous et al). 1999;134:90-6
Chemicals, hazardous; *see* Hazardous substances
Child development
Diagnosing with both sides of the brain (Accardo). 1999;134:142-3 (Editorial)
Effects of environmental exposure to polychlorinated biphenyls and dioxins on cognitive abilities in Dutch children at 42 months of age (Patandin et al). 1999;134:33-41
Environmental chemicals and child development (Dietrich). 1999;134:7-9 (Editorial)
Psychoeducational profile of the 22q11.2 microdeletion: a complex pattern (Moss et al). 1999;134:193-8
Cholestasis
Cholestatic jaundice with skin desquamation in a 12-year-old girl (Stutts et al). 1999;134:649-53 (Grand rounds)
Transient neonatal cholestasis and perinatal asphyxia (Vajro et al). 1999;134:795 (Letter)
Chromosome abnormalities
Autosomal dominant granulomatous disease of childhood (Rotenstein and Gibbas) (Letter); (Ting) (Reply). 1999;134:663-4
Diagnosing with both sides of the brain (Accardo). 1999;134:142-3 (Editorial)
Maternal uniparental disomy 14 as a cause of intrauterine growth retardation and early onset of puberty (Fokstuen et al). 1999;134:689-95
Psychoeducational profile of the 22q11.2 microdeletion: a complex pattern (Moss et al). 1999;134:193-8
Significance of genetic testing for paternal uniparental disomy of chromosome 6 in neonatal diabetes mellitus (Christian et al). 1999;134:42-6
U-P what? (Hall). 1999;134:9-10 (Editorial)
Chromosomes, human, pair 6
Significance of genetic testing for paternal uniparental disomy of chromosome 6 in neonatal diabetes mellitus (Christian et al). 1999;134:42-6
U-P what? (Hall). 1999;134:9-10 (Editorial)
Chromosomes, human, pair 14
Maternal uniparental disomy 14 as a cause of intrauterine growth retardation and early onset of puberty (Fokstuen et al). 1999;134:689-95
Chronic fatigue syndrome
Report of a workshop on the epidemiology, natural history, and pathogenesis of chronic fatigue syndrome in adolescents (Marshall). 1999;134:395-405
Chronic granulomatous disease; *see* Granulomatous disease, chronic
Chronic pulmonary disease; *see* Lung diseases
Cisapride
Cisapride in the control of symptoms in infants with gastroesophageal reflux: a randomized, double-blind, placebo-controlled trial (Cohen et al). 1999;134:287-92
Cisapride doesn't work? Don't go breakin' my heart! (Shulman). 1999;134:262-4 (Editorial)
Citrulline
Neonatal onset ornithine transcarbamylase deficiency: a retrospective analysis (Maestri et al). 1999;134:268-72
Treatment of urea cycle disorders (Thoene). 1999;134:255-6 (Editorial)
Clavicle
Sternocleidomastoid pseudotumor and congenital muscular torticollis in infants: a prospective study of 510 cases (Cheng et al). 1999;134:712-6
Cleft lip
Maternal periconceptional alcohol consumption and risk for orofacial clefts (Shaw and Lammer). 1999;134:298-303
Cleft palate
Maternal periconceptional alcohol consumption and risk for orofacial clefts (Shaw and Lammer). 1999;134:298-303
Clinical trials
Do sick newborn infants benefit from participation in a randomized clinical trial? (Schmidt et al). 1999;134:151-5
The "inclusion benefit" in clinical trials (Lantos). 1999;134:130-1 (Editorial)
Cognition
The effect of hypoglycemic seizures on cognitive function in children with diabetes: a 7-year prospective study (Rovet and Ehrlich). 1999;134:503-6 (CLO)
Effects of environmental exposure to polychlorinated biphenyls and dioxins on cognitive abilities in Dutch children at 42 months of age (Patandin et al). 1999;134:33-41
Environmental chemicals and child development (Dietrich). 1999;134:7-9 (Editorial)
Intensive diabetes therapy in childhood: Is it achievable? Is it desirable? Is it safe? (Becker and Ryan). 1999;134:392-4 (Editorial)
Congenital adrenal hyperplasia; *see* Adrenal hyperplasia, congenital
Congenital malformations; *see* Abnormalities
Copper
Pseudoscurvy caused by copper deficiency (Hoyle et al). 1999;134:379 (Insights)
Correspondence; *see* Letters
Cow's milk allergy; *see* Milk allergy
Cross infection
A randomized, double-blind, placebo-controlled trial of prophylactic recombinant human granulocyte-macrophage colony–stimulating factor to reduce nosocomial infections in very low birth weight neonates (Cairo et al). 1999;134:64-70

Cushing's syndrome
Cushing's syndrome caused by nodular adrenal hyperplasia in children with McCune-Albright syndrome (Kirk et al). 1999;134:789-92 (CLO)
Cyclic adenosine monophosphate; *see* Adenosine cyclic monophosphate
Cyclic vomiting; *see* Vomiting
Cysteine
Cysteine supplementation results in normalization of plasma taurine concentrations in children receiving home parenteral nutrition (Helms et al). 1999;134:358-61 (CLO)
Cystic fibrosis
Clinical pathologic correlation: a 3-year-old boy with cystic fibrosis and intestinal obstruction (Lewis et al). 1999;134:514-9 (Grand rounds)
Comparison of a β-lactam alone versus β-lactam and an aminoglycoside for pulmonary exacerbation in cystic fibrosis (Smith et al). 1999;134:413-21
Estimating effectiveness in an observational study: a case study of dornase alfa in cystic fibrosis (Johnson et al). 1999;134:734-9
The pharmacokinetics of ibuprofen suspension, chewable tablets, and tablets in children with cystic fibrosis (Scott et al). 1999;134:58-63
Race, ethnicity, and genetics (Wack) (Letter); (Hamosh) (Reply); (Harris) (Reply). 1999;134:122-3

D

Delivery
Effect of polyethylene occlusive skin wrapping on heat loss in very low birth weight infants at delivery: a randomized trial (Vohra et al). 1999;134:547-51
Demography
Demographics and diagnosis of pyridoxine-dependent seizures (Ebinger et al) (Letter); (Gospe) (Reply). 1999;134:795-6
Dental care
Halitosis in children (Amir et al). 1999;134:338-43
Dermatitis, atopic
Association of atopic diseases with breast-feeding: food allergens, fatty acids, and evolution (Goldman). 1999;134:5-7 (Editorial)
Breast-feeding of allergic infants (Isolauri et al). 1999;134:27-32
Dexamethasone
Effect of pulsed dexamethasone therapy on tolerance of intravenously administered lipids in extremely low birth weight infants (Sentipal-Walerius et al). 1999;134:229-32 (CLO)
Single-dose dexamethasone treatment of hypotension in preterm infants (Gaissmaier and Pohlandt). 1999;134:701-5
Dextrose; *see* Glucose
Diabetes mellitus, insulin-dependent
Advanced glycation end products in children and adolescents with diabetes: relation to glycemic control and early microvascular complications (Chiarelli et al). 1999;134:486-91
The effect of hypoglycemic seizures on cognitive function in children with diabetes: a 7-year prospective study (Rovet and Ehrlich). 1999;134:503-6 (CLO)
Intensive diabetes therapy in childhood: Is it achievable? Is it desirable? Is it safe? (Becker and Ryan). 1999;134:392-4 (Editorial)
The natural history of microalbuminuria in adolescents with type 1 diabetes (Gorman et al). 1999;134:333-7
Significance of genetic testing for paternal uniparental disomy of chromosome 6 in neonatal diabetes mellitus (Christian et al). 1999;134:42-6
U-P what? (Hall). 1999;134:9-10 (Editorial)
Diabetic ketoacidosis
The "two bag system" for variable intravenous dextrose and fluid administration: benefits in diabetic ketoacidosis management (Grimberg et al). 1999;134:376-8 (CLO)
Diabetic retinopathy
Discordant diabetic retinopathy in homozygous twins: the importance of good metabolic control (Verougstraete et al). 1999;134:658 (Insights)
Diagnosis
Diagnosing with both sides of the brain (Accardo). 1999;134:142-3 (Editorial)
Psychoeducational profile of the 22q11.2 microdeletion: a complex pattern (Moss et al). 1999;134:193-8
Diagnosis, differential
Malignancies in children who initially present with rheumatic complaints (Cabral and Tucker). 1999;134:53-7
Serologic testing for inflammatory bowel disease (Hoffenberg et al). 1999;134:447-52
The swollen, scarlet scrotum: an uncommon manifestation of a common disorder (Gunasekaran and Hassall). 1999;134:97-8 (Insights)
Transient hypokalemic metabolic alkalosis in a newborn mimicking Bartter's syndrome (Voyame et al). 1999;134:794 (Letter)
Diagnostic errors
Pulmonary stenosis: defect-specific diagnostic accuracy of heart murmurs in children (Danford et al). 1999;134:76-81
Diagnostic imaging
The vomiting infant (Rosh et al) (Letter); (Cohen) (Letter); (Frush et al) (Reply). 1999;134:662-3
Diagnostic tests
IgA antibodies to tissue transglutaminase: an effective diagnostic test for celiac disease (Troncone et al). 1999;134:166-71
Tissue transglutaminase: The Holy Grail for the diagnosis of celiac disease, at last? (Fasano). 1999;134:134-5 (Editorial)
Diarrhea
A cluster of microvillous inclusion disease in the Navajo population (Pohl et al). 1999;134:103-6 (CLO)
A placebo-controlled trial of *Lactobacillus* GG to prevent diarrhea in undernourished Peruvian children (Oberhelman et al). 1999;134:15-20
Prevention of diarrhea by the probiotic, *Lactobacillus* GG (DuPont). 1999;134:1-2 (Editorial)
Diet
Celiac disease–associated alopecia in childhood (Naveh et al). 1999;134:362-4 (CLO)
DiGeorge syndrome
Diagnosing with both sides of the brain (Accardo). 1999;134:142-3 (Editorial)
Psychoeducational profile of the 22q11.2 microdeletion: a complex pattern (Moss et al). 1999;134:193-8
Digestion
Sources of breath hydrogen in infants (Shulman) (Letter); (Brand-Miller) (Reply). 1999;134:659-61
Dioxins
Effects of environmental exposure to polychlorinated biphenyls and dioxins on cognitive abilities in Dutch children at 42 months of age (Patandin et al). 1999;134:33-41
Environmental chemicals and child development (Dietrich). 1999;134:7-9 (Editorial)
Diplegia
Spastic diplegia and interferon (Deb et al) (Letter); (Barlow et al) (Reply). 1999;134:382
Discharge, patient; *see* Patient discharge
Disomy; *see* Chromosome abnormalities
Dornase alfa
Estimating effectiveness in an observational study: a case study of dornase alfa in cystic fibrosis (Johnson et al). 1999;134:734-9
Dorsal dermal sinus; *see* Spina bifida occulta
Dose-response relationship, drug
Ethical issues of placebo-controlled trials (Ferdman and Church) (Letter); (Shapiro) (Reply). 1999;134:251-2
Down syndrome
Sleep characteristics in children with Down syndrome (Levanon et al). 1999;134:755-60

Drainage
Unilateral total and contralateral partial pulmonary agenesis associated with total anomalous pulmonary venous drainage (Finci et al). 1999;134:510-2 (CLO)
Drug eruptions
Fixed drug eruptions in children (Morelli et al). 1999;134:365-7 (CLO)
Drug tolerance
Transdermal fentanyl in children with cancer pain: feasibility, tolerability, and pharmacokinetic correlates (Collins et al). 1999;134:319-23
Ductus arteriosus, patent
Short versus prolonged indomethacin therapy for patent ductus arteriosus in preterm infants (Tammela et al). 1999;134:552-7
Dwarfism
Increased incidence of cancer in patients with cartilage-hair hypoplasia (Mäkitie et al). 1999;134:315-8
Dyscalculia
Welcome to never-neverland (Cunningham) (Letter); (Freeman and Vining) (Letter); (Accardo) (Reply). 1999;134:524-5

Editorials
Alagille syndrome: a nutritional niche for Notch (Sokol). 1999;134:136-8
Association of atopic diseases with breast-feeding: food allergens, fatty acids, and evolution (Goldman). 1999;134:5-7
Barriers to the treatment of childhood obesity: a call to action (Dietz and Nelson). 1999;134:535-6
Cisapride doesn't work? Don't go breakin' my heart! (Shulman). 1999;134:262-4
Classifying brain damage in preterm infants (Paneth). 1999;134:527-9
Cyclic vomiting syndrome and migraine (Fleisher). 1999;134:533-5
Diagnosing with both sides of the brain (Accardo). 1999;134:142-3
Environmental chemicals and child development (Dietrich). 1999;134:7-9
Expanding role of bisphosphonate therapy in children (Shoemaker). 1999;134:264-7
Home monitoring of 17 hydroxyprogesterone levels: "Throw away the urine jug, Mom, the filter paper just arrived" (Schwartz). 1999;134:140-2
Immune thrombocytopenic purpura: Why treat? (Nugent). 1999;134:3-4
The "inclusion benefit" in clinical trials (Lantos). 1999;134:130-1
Intensive diabetes therapy in childhood: Is it achievable? Is it desirable? Is it safe? (Becker and Ryan). 1999;134:392-4
Is there an epidemic of cardiovascular disease on the horizon? (Daniels). 1999;134:665-6
Leukotriene receptor antagonist treatment of asthma: Are we there yet? (Keresmar). 1999;134:256-9
The long- and short-term outcome of living-donor liver transplantation (Buzuvalas and Ryckman). 1999;134:259-61
Narcotic analgesia for ventilated newborns: Are placebo-controlled trials ethical and necessary? (Kennedy and Tyson). 1999;134:127-9
Neonatal hypoglycemia: a little goes a long way (Cowett). 1999;134:389-91
Newborn screening for inborn errors of metabolism is going to expand: Are we ready? (Cederbaum and Vilain). 1999;134:666-7
Nitric oxide in acute hypoxic respiratory failure: from the bench to the bedside and back again (Bohn). 1999;134:387-9
The pediatric growth curve as a cancer research tool (Blatt et al). 1999;134:138-40
Prevention of diarrhea by the probiotic, *Lactobacillus* GG (DuPont). 1999;134:1-2
Relative antioxidant deficiency in obese children: A weighty contributor to morbidity? (Lavine). 1999;134:132-3
Should boys with micropenis be reared as girls? (Van Wyk and Calikoglu). 1999;134:537-8
Thermal management of the low birth weight infant: a cornerstone of neonatology (Narendran and Hoath). 1999;134:529-31
Tissue transglutaminase: The Holy Grail for the diagnosis of celiac disease, at last? (Fasano). 1999;134:134-5
Treatment of urea cycle disorders (Thoene). 1999;134:255-6
U-P what? (Hall). 1999;134:9-10
Vagal nerve stimulation for treatment of children with epilepsy (Camfield and Camfield). 1999;134:532-3
Education
Welcome to never-neverland (Cunningham) (Letter); (Freeman and Vining) (Letter); (Accardo) (Reply). 1999;134:524-5
Educational measurement
Diagnosing with both sides of the brain (Accardo). 1999;134:142-3 (Editorial)
Psychoeducational profile of the 22q11.2 microdeletion: a complex pattern (Moss et al). 1999;134:193-8
Electron transport
Respiratory chain complex in deficiency with pruritus: a novel vitamin responsive clinical feature (Mowat et al). 1999;134:352-4 (CLO)
Emotions
Social and emotional problems in children with neurofibromatosis type 1: evidence and proposed interventions (Johnson et al). 1999;134:767-72 (CLO)
Encephalopathy
Cat-scratch disease encephalopathy: a cause of status epilepticus in school-aged children (Armengol and Hendley). 1999;134:635-8 (CLO)
Infantile encephalopathy associated with the MELAS A3243G mutation (Sue et al). 1999;134:696-700
Energy metabolism
Alagille syndrome: a nutritional niche for Notch (Sokol). 1999;134:136-8 (Editorial)
Growth, nutritional status, body composition, and energy expenditure in prepubertal children with Alagille syndrome (Wasserman et al). 1999;134:172-7
Enteral nutrition
Randomized trial of "slow" versus "fast" feed advancements on the incidence of necrotizing enterocolitis in very low birth weight infants (Rayyis et al). 1999;134:293-7
Enterocolitis, pseudomembranous
Randomized trial of "slow" versus "fast" feed advancements on the incidence of necrotizing enterocolitis in very low birth weight infants (Rayyis et al). 1999;134:293-7
Enterovirus infections
Enteroviral meningoencephalitis as a complication of X-linked hyper IgM syndrome (Cunningham et al). 1999;134:584-8
Environmental pollutants
Environmental chemicals and child development (Dietrich). 1999;134:7-9 (Editorial)
Enzymes
Splenic abscess in a patient with type 3 Gaucher's disease receiving enzyme replacement therapy (Maclean and Wilson). 1999;134:245-7 (CLO)
Epidemiology
The epidemiology of clinical neonatal seizures in Newfoundland: a population-based study (Ronen et al). 1999;134:71-5
Report of a workshop on the epidemiology, natural history, and pathogenesis of chronic fatigue syndrome in adolescents (Marshall). 1999;134:395-405
Epilepsy
Left vagal nerve stimulation in children with medically refractory epilepsy (Murphy and Pediatric VNS Study Group). 1999;134:563-6
Vagal nerve stimulation for treatment of children with epilepsy (Camfield and Camfield). 1999;134:532-3 (Editorial)
Erythropoietin
Elevated blood lead levels in children are associated with lower erythropoietin concentrations (Liebelt et al). 1999;134:107-9 (CLO)
Erythropoietin and iron therapy for preterm infants (Vento et al) (Letter); (Kumar) (Letter); (Maier et al) (Reply). 1999;134:520-2

Esophagus
Antiperinuclear factor and antibodies to the stratum corneum of rat esophagus in juvenile idiopathic arthritis (Serra et al). 1999;134:507-9 (CLO)
Estradiol
Estrogen levels in girls with premature thelarche compared with normal prepubertal girls as determined by an ultrasensitive recombinant cell bioassay (Klein et al). 1999;134:190-2
Estrogens
Estrogen levels in girls with premature thelarche compared with normal prepubertal girls as determined by an ultrasensitive recombinant cell bioassay (Klein et al). 1999;134:190-2
Ethics
Advantages of fentanyl over morphine in analgesia for ventilated newborn infants after birth: a randomized trial (Saarenmaa et al). 1999;134:144-50
Ethical issues of placebo-controlled trials (Ferdman and Church) (Letter); (Shapiro) (Reply). 1999;134:251-2
Narcotic analgesia for ventilated newborns: Are placebo-controlled trials ethical and necessary? (Kennedy and Tyson). 1999;134:127-9 (Editorial)
Ethnic groups
Race, ethnicity, and genetics (Wack) (Letter); (Hamosh) (Reply); (Harris) (Reply). 1999;134:122-3
Etidronate disodium
Etidronate therapy for hypercalcemia in subcutaneous fat necrosis of the newborn (Rice and Rivkees). 1999;134:349-51 (CLO)
Expanding role of bisphosphonate therapy in children (Shoemaker). 1999;134:264-7 (Editorial)
Exercise
The leukotriene D_4-receptor antagonist zafirlukast attenuates exercise-induced bronchoconstriction in children (Pearlman et al). 1999;134:273-9
Leukotriene receptor antagonist treatment of asthma: Are we there yet? (Keresmar). 1999;134:256-9 (Editorial)
Extracorporeal membrane oxygenation
Five-year follow-up of neonates with reconstructed right common carotid arteries after extracorporeal membrane oxygenation (Desai et al). 1999;134:428-33
Predictors of intracranial hemorrhage during neonatal extracorporeal membrane oxygenation (Hardart and Fackler). 1999;134:156-9
Extremely low birth weight infant; *see* Infant, low birth weight
Eye neoplasms
Chorioretinal lesions in patients and carriers of chronic granulomatous disease (Goldblatt et al). 1999;134:780-3 (CLO)

F

Face
Head turning and face-down positioning in prone-sleeping premature infants (Constantin et al). 1999;134:558-62
Phenotypic spectrum and management issues in Kabuki syndrome (Kawame et al). 1999;134:480-5
Factor V
Factor V Leiden and other hypercoagulable state mutations are not associated with osteonecrosis during or after treatment for pediatric malignancy (Kechli et al). 1999;134:310-4
Fat necrosis
Etidronate therapy for hypercalcemia in subcutaneous fat necrosis of the newborn (Rice and Rivkees). 1999;134:349-51 (CLO)
Expanding role of bisphosphonate therapy in children (Shoemaker). 1999;134:264-7 (Editorial)
Fats
BMI: Does it really reflect body fat mass? (Widhalm and Schönegger) (Letter); (Pietrobelli et al) (Reply). 1999;134:522-3
Body fat determined by skinfold measurements is elevated despite underweight in infants with Prader-Labhart-Willi syndrome (Eiholzer et al). 1999;134:222-5 (CLO)
Growth hormone improves body composition, fat utilization, physical strength and agility, and growth in Prader-Willi syndrome: a controlled study (Carrel et al). 1999;134:215-21
Fatty acid desaturases
Multiple acyl-coenzyme A dehydrogenase deficiency: diagnosis by acyl-carnitine analysis of a 12-year-old newborn screening card (Poplawski et al). 1999;134:764-6 (CLO)
Fatty acids
Association of atopic diseases with breast-feeding: food allergens, fatty acids, and evolution (Goldman). 1999;134:5-7 (Editorial)
Breast-feeding of allergic infants (Isolauri et al). 1999;134:27-32
Feasibility studies
Transdermal fentanyl in children with cancer pain: feasibility, tolerability, and pharmacokinetic correlates (Collins et al). 1999;134:319-23
Feed advancements; *see* Enteral nutrition
Fentanyl
Advantages of fentanyl over morphine in analgesia for ventilated newborn infants after birth: a randomized trial (Saarenmaa et al). 1999;134:144-50
Narcotic analgesia for ventilated newborns: Are placebo-controlled trials ethical and necessary? (Kennedy and Tyson). 1999;134:127-9 (Editorial)
Transdermal fentanyl in children with cancer pain: feasibility, tolerability, and pharmacokinetic correlates (Collins et al). 1999;134:319-23
Fetal growth retardation
Maternal uniparental disomy 14 as a cause of intrauterine growth retardation and early onset of puberty (Fokstuen et al). 1999;134:689-95
Fetus, drug effects
Maternal periconceptional alcohol consumption and risk for orofacial clefts (Shaw and Lammer). 1999;134:298-303
Fibrous dysplasia, polyostotic
Cushing's syndrome caused by nodular adrenal hyperplasia in children with McCune-Albright syndrome (Kirk et al). 1999;134:789-92 (CLO)
Filter paper
Home monitoring of 17 hydroxyprogesterone levels in congenital adrenal hyperplasia with filter paper blood samples (Bode et al). 1999;134:185-9
Home monitoring of 17 hydroxyprogesterone levels: "Throw away the urine jug, Mom, the filter paper just arrived" (Schwartz). 1999;134:140-2 (Editorial)
Fixed drug eruptions; *see* Drug eruptions
Fluticasone
Effect on growth of inhaled steroid therapy (Brand and Roorda). 1999;134:253 (Letter)
Efficacy and safety of high-dose inhaled steroids in children with asthma: a comparison of fluticasone propionate with budesonide (Ferguson et al). 1999;134:422-7
Food hypersensitivity
Association of atopic diseases with breast-feeding: food allergens, fatty acids, and evolution (Goldman). 1999;134:5-7 (Editorial)
Breast-feeding of allergic infants (Isolauri et al). 1999;134:27-32
Soy allergy in infants and children with IgE-associated cow's milk allergy (Zeiger et al). 1999;134:614-22
Forced expiratory volume
Estimating effectiveness in an observational study: a case study of dornase alfa in cystic fibrosis (Johnson et al). 1999;134:734-9
Fucose
Leukocyte adhesion deficiency II syndrome, a generalized defect in fucose metabolism (Marquardt et al). 1999;134:681-8

G

Gamma globulins
High-dose aspirin in Kawasaki disease (Shulman) (Letter); (Saphyakhajon and Greene) (Reply). 1999;134:523-4

Gastroesophageal reflux
Cisapride in the control of symptoms in infants with gastroesophageal reflux: a randomized, double-blind, placebo-controlled trial (Cohen et al). 1999;134:287-92
Cisapride doesn't work? Don't go breakin' my heart! (Shulman). 1999;134:262-4 (Editorial)
Gaucher's disease
Splenic abscess in a patient with type 3 Gaucher's disease receiving enzyme replacement therapy (Maclean and Wilson). 1999;134:245-7 (CLO)
Genetics
Race, ethnicity, and genetics (Wack) (Letter); (Hamosh) (Reply); (Harris) (Reply). 1999;134:122-3
Serum IgE levels during the first 6 years of life (Kulig et al). 1999;134:453-8
Significance of genetic testing for paternal uniparental disomy of chromosome 6 in neonatal diabetes mellitus (Christian et al). 1999;134:42-6
U-P what? (Hall). 1999;134:9-10 (Editorial)
Germany
Serum IgE levels during the first 6 years of life (Kulig et al). 1999;134:453-8
Gilbert's syndrome
Gilbert's syndrome is a contributory factor in prolonged unconjugated hyperbilirubinemia of the newborn (Monaghan et al). 1999;134:441-6
Glucose
The "two bag system" for variable intravenous dextrose and fluid administration: benefits in diabetic ketoacidosis management (Grimberg et al). 1999;134:376-8 (CLO)
Gluten
Celiac disease–associated alopecia in childhood (Naveh et al). 1999;134:362-4 (CLO)
Glycosylation end products, advanced
Advanced glycation end products in children and adolescents with diabetes: relation to glycemic control and early microvascular complications (Chiarelli et al). 1999;134:486-91
Gram-negative bacteria
C-reactive protein is useful in distinguishing Gram stain–negative bacterial meningitis from viral meningitis in children (Sormunen et al). 1999;134:725-9
Grand rounds
Grand rounds. 1999;134:114-8, 514-9, 649-53
Granulocyte colony-stimulating factor
A randomized, double-blind, placebo-controlled trial of prophylactic recombinant human granulocyte-macrophage colony–stimulating factor to reduce nosocomial infections in very low birth weight neonates (Cairo et al). 1999;134:64-70
Granulomatous disease, chronic
Autosomal dominant granulomatous disease of childhood (Rotenstein and Gibbas) (Letter); (Ting) (Reply). 1999;134:663-4
Chorioretinal lesions in patients and carriers of chronic granulomatous disease (Goldblatt et al). 1999;134:780-3 (CLO)
Group A streptococcus; *see* *Streptococcus pyogenes*
Growth
Alagille syndrome: a nutritional niche for Notch (Sokol). 1999;134:136-8 (Editorial)
Blood lead concentration and children's anthropometric dimensions in the Third National Health and Nutrition Examination Survey (NHANES III), 1988-1994 (Ballew et al). 1999;134:623-30
Effect on growth of inhaled steroid therapy (Brand and Roorda). 1999;134:253 (Letter)
Growth during maintenance hemodialysis: impact of enhanced nutrition and clearance (Tom et al). 1999;134:464-71
Growth hormone improves body composition, fat utilization, physical strength and agility, and growth in Prader-Willi syndrome: a controlled study (Carrel et al). 1999;134:215-21
Growth, nutritional status, body composition, and energy expenditure in prepubertal children with Alagille syndrome (Wasserman et al). 1999;134:172-7
Longitudinal evaluation of growth, puberty, and bone maturation in children with Williams syndrome (Partsch et al). 1999;134:82-9
The pediatric growth curve as a cancer research tool (Blatt et al). 1999;134:138-40 (Editorial)
Rapid somatic growth after birth in children with neuroblastoma: a survey of 1718 patients with childhood cancer in Kyushu-Okinawa district (Suminoe et al). 1999;134:178-84
Spontaneous growth and bone age development in a patient with 17α-hydroxylase deficiency: evidence of the role of sexual steroids in prepubertal bone maturation (Mayer et al). 1999;134:371-5 (CLO)
Growth disorders
Excessive infantile growth and early pubertal growth spurt: typical features in patients with aspartylglycosaminuria (Arvio et al). 1999;134:761-3 (CLO)
Growth deficiency and malnutrition in Bloom syndrome (Keller et al). 1999;134:472-9
Growth hormone; *see* Somatotropin
Guillain-Barré syndrome; *see* Polyradiculoneuritis

H

Haemophilus influenzae
Infant Hib vaccination and herd immunity (Rushdy et al). 1999;134:253-4 (Letter)
Hair
Celiac disease–associated alopecia in childhood (Naveh et al). 1999;134:362-4 (CLO)
Halitosis
Halitosis in children (Amir et al). 1999;134:338-43
Hazardous substances
Environmental chemicals and child development (Dietrich). 1999;134:7-9 (Editorial)
Head
Head turning and face-down positioning in prone-sleeping premature infants (Constantin et al). 1999;134:558-62
Predictors of intracranial hemorrhage during neonatal extracorporeal membrane oxygenation (Hardart and Fackler). 1999;134:156-9
Heart failure, congestive
Neonatal effects of maternal consumption of blue cohosh (Wright) (Letter); (Jones) (Reply). 1999;134:384-5
Heart murmurs
Pulmonary stenosis: defect-specific diagnostic accuracy of heart murmurs in children (Danford et al). 1999;134:76-81
Heat loss; *see* Body temperature regulation
Hemangioma
Spastic diplegia and interferon (Deb et al) (Letter); (Barlow et al) (Reply). 1999;134:382
Hemodialysis
Growth during maintenance hemodialysis: impact of enhanced nutrition and clearance (Tom et al). 1999;134:464-71
Hemodynamics
Hemodynamic observations in a newborn with Parkes-Weber syndrome (Berger and Caduff). 1999;134:513 (Insights)
Hemophagocytic lymphohistiocytosis; *see* Histiocytosis, non-Langerhans-cell
Hemorrhage
Classifying brain damage in preterm infants (Paneth). 1999;134:527-9 (Editorial)
Clinical significance of lupus anticoagulants in children (Male et al). 1999;134:199-205
Predictors of intracranial hemorrhage during neonatal extracorporeal membrane oxygenation (Hardart and Fackler). 1999;134:156-9
White matter disorders of prematurity: association with intraventricular hemorrhage and ventriculomegaly (Kuban et al). 1999;134:539-46
Hemostasis
NO effect on hemostasis (Cheung et al) (Letter); (George and Segar) (Reply). 1999;134:383-4

Hepatic veno-occlusive disease
Hepatic veno-occlusive disease in ataxia-telangiectasia (Srisiriro-janakorn et al). 1999;134:786-8 (CLO)
Hepatitis A
Hepatitis A vaccination in chronic carriers of hepatitis B virus (Nebbia et al). 1999;134:784-5 (CLO)
Hepatitis B
Hepatitis A vaccination in chronic carriers of hepatitis B virus (Nebbia et al). 1999;134:784-5 (CLO)
Hepatotoxicity; *see* Liver, toxic effects
Hib; *see Haemophilus influenzae*
Histiocytosis, non-Langerhans-cell
Intermittent hemophagocytic lymphohistiocytosis is a regular feature of lysinuric protein intolerance (Duval et al). 1999;134:236-9 (CLO)
HIV
Adrenal suppression in children with the human immunodeficiency virus treated with megestrol acetate (Stockheim et al). 1999;134:368-70 (CLO)
Immunoreconstitution after ritonavir therapy in children with human immunodeficiency virus infection involves multiple lymphocyte lineages (Sleasman et al). 1999;134:597-606
HIV-1
The effects of zidovudine in the subset of infants infected with human immunodeficiency virus type-1 (Pediatric AIDS Clinical Trials Group Protocol 076) (McSherry et al). 1999;134:717-24
HLA antigens
Influence of severe combined immunodeficiency phenotype on the outcome of HLA non-identical, T-cell–depleted bone marrow transplantation—a retrospective European survey from the European Group for Bone Marrow Transplantation and the European Society for Immunodeficiency (Bertrand et al). 1999;134:740-8
Home monitoring
Home monitoring of 17 hydroxyprogesterone levels in congenital adrenal hyperplasia with filter paper blood samples (Bode et al). 1999;134:185-9
Home monitoring of 17 hydroxyprogesterone levels: "Throw away the urine jug, Mom, the filter paper just arrived" (Schwartz). 1999;134:140-2 (Editorial)
Home parenteral nutrition; *see* Parenteral nutrition, home
Homozygote
Discordant diabetic retinopathy in homozygous twins: the importance of good metabolic control (Verougstraete et al). 1999;134:658 (Insights)
Postsplenectomy course in homozygous sickle cell disease (Wright et al). 1999;134:304-9
Human immunodeficiency virus; *see* HIV
Hydrogen
Sources of breath hydrogen in infants (Shulman) (Letter); (Brand-Miller) (Reply). 1999;134:659-61
Hydrogen-ion concentration
The vomiting infant (Rosh et al) (Letter); (Cohen) (Letter); (Frush et al) (Reply). 1999;134:662-3
Hydroxylases
Spontaneous growth and bone age development in a patient with 17α-hydroxylase deficiency: evidence of the role of sexual steroids in prepubertal bone maturation (Mayer et al). 1999;134:371-5 (CLO)
Hydroxyprogesterones
Home monitoring of 17 hydroxyprogesterone levels in congenital adrenal hyperplasia with filter paper blood samples (Bode et al). 1999;134:185-9
Home monitoring of 17 hydroxyprogesterone levels: "Throw away the urine jug, Mom, the filter paper just arrived" (Schwartz). 1999;134:140-2 (Editorial)
Hyperbilirubinemia of the newborn; *see* Jaundice, neonatal
Hypercalcemia
Etidronate therapy for hypercalcemia in subcutaneous fat necrosis of the newborn (Rice and Rivkees). 1999;134:349-51 (CLO)
Expanding role of bisphosphonate therapy in children (Shoemaker). 1999;134:264-7 (Editorial)
Hypercoagulation; *see* Blood coagulation
Hypersensitivity
Latex sensitization in spina bifida appears disease-associated (Szépfalusi et al). 1999;134:344-8
Hypertension, pulmonary
Alveolar capillary dysplasia: an emerging syndrome (Thibeault et al) (Letter); (Buchino et al) (Reply). 1999;134:661
Hypertrophic cardiomyopathy; *see* Cardiomyopathy, hypertrophic
Hypoglycemia
The effect of hypoglycemic seizures on cognitive function in children with diabetes: a 7-year prospective study (Rovet and Ehrlich). 1999;134:503-6 (CLO)
Failure to detect preterm infants at risk of hypoglycemia before discharge (Hume et al). 1999;134:499-502 (CLO)
Intensive diabetes therapy in childhood: Is it achievable? Is it desirable? Is it safe? (Becker and Ryan). 1999;134:392-4 (Editorial)
Long-term effects of neonatal hypoglycemia on brain growth and psychomotor development in small-for-gestational-age preterm infants (Duvanel et al). 1999;134:492-8
Neonatal hypoglycemia: a little goes a long way (Cowett). 1999;134:389-91 (Editorial)
Hypogonadism
Congenital hypogonadotropic hypogonadism and micropenis: effect of testosterone treatment on adult penile size—why sex reversal is not indicated (Bin-Abbas et al). 1999;134:579-83
Should boys with micropenis be reared as girls? (Van Wyk and Calikoglu). 1999;134:537-8 (Editorial)
Hypokalemia
Transient hypokalemic metabolic alkalosis in a newborn mimicking Bartter's syndrome (Voyame et al). 1999;134:794 (Letter)
Hypoprothrombinemias
Clinical significance of lupus anticoagulants in children (Male et al). 1999;134:199-205
Hypotension
Single-dose dexamethasone treatment of hypotension in preterm infants (Gaissmaier and Pohlandt). 1999;134:701-5
Hypothyroxinemia; *see* Thyroxine
Hypoxia; *see* Anoxia

I

Ibuprofen
The pharmacokinetics of ibuprofen suspension, chewable tablets, and tablets in children with cystic fibrosis (Scott et al). 1999;134:58-63
IgA
IgA antibodies to tissue transglutaminase: an effective diagnostic test for celiac disease (Troncone et al) 1999;134:166-71
Tissue transglutaminase: The Holy Grail for the diagnosis of celiac disease, at last? (Fasano). 1999;134:134-5 (Editorial)
IgE
Serum IgE levels during the first 6 years of life (Kulig et al). 1999;134:453-8
IgG
Immune thrombocytopenic purpura: Why treat? (Nugent). 1999;134:3-4 (Editorial)
Treatment of childhood acute immune thrombocytopenic purpura with anti-D immune globulin or pooled immune globulin (Tarantino et al). 1999;134:21-6
IgM
Enteroviral meningoencephalitis as a complication of X-linked hyper IgM syndrome (Cunningham et al). 1999;134:584-8
Immunity
Infant Hib vaccination and herd immunity (Rushdy et al). 1999;134:253-4 (Letter)
Immunodeficiency
Pneumatosis intestinale in childhood (Barton) (Letter); (Tang and Williams) (Reply). 1999;134:124-5

Immunoglobulins, intravenous
Early and prolonged intravenous immunoglobulin replacement therapy in childhood agammaglobulinemia: a retrospective survey of 31 patients (Quartier et al). 1999;134:589-96
Failure of intravenously administered immunoglobulin in the treatment of neonatal myasthenia gravis (Tagher et al). 1999;134:233-5 (CLO)
Immune thrombocytopenic purpura: Why treat? (Nugent). 1999;134:3-4 (Editorial)
Treatment of childhood acute immune thrombocytopenic purpura with anti-D immune globulin or pooled immune globulin (Tarantino et al). 1999;134:21-6
Inborn errors of metabolism; *see* Metabolism, inborn errors
Indians, North American
A cluster of microvillous inclusion disease in the Navajo population (Pohl et al). 1999;134:103-6 (CLO)
Indomethacin
Short versus prolonged indomethacin therapy for patent ductus arteriosus in preterm infants (Tammela et al). 1999;134:552-7
Infant
Cisapride in the control of symptoms in infants with gastroesophageal reflux: a randomized, double-blind, placebo-controlled trial (Cohen et al). 1999;134:287-92
Cisapride doesn't work? Don't go breakin' my heart! (Shulman). 1999;134:262-4 (Editorial)
Infant Hib vaccination and herd immunity (Rushdy et al). 1999;134:253-4 (Letter)
Renal solute load and *potential* renal solute load in infancy (Fomon and Ziegler). 1999;134:11-4
Sources of breath hydrogen in infants (Shulman) (Letter); (Brand-Miller) (Reply). 1999;134:659-61
Toddler-age nodulocystic acne (Mengesha and Hansen). 1999;134:644-8 (CLO)
Infant, diseases
Body fat determined by skinfold measurements is elevated despite underweight in infants with Prader-Labhart-Willi syndrome (Eiholzer et al). 1999;134:222-5 (CLO)
The effects of zidovudine in the subset of infants infected with human immunodeficiency virus type-1 (Pediatric AIDS Clinical Trials Group Protocol 076) (McSherry et al). 1999;134:717-24
Excessive infantile growth and early pubertal growth spurt: typical features in patients with aspartylglycosaminuria (Arvio et al). 1999;134:761-3 (CLO)
Infantile encephalopathy associated with the MELAS A3243G mutation (Sue et al). 1999;134:696-700
Lung function in infants with chronic pulmonary disease after severe adenoviral illness (Teper et al). 1999;134:730-3
Spastic diplegia and interferon (Deb et al) (Letter); (Barlow et al) (Reply). 1999;134:382
Sternocleidomastoid pseudotumor and congenital muscular torticollis in infants: a prospective study of 510 cases (Cheng et al). 1999;134:712-6
Trend in mortality from respiratory distress syndrome in the United States, 1970-1995 (Lee et al). 1999;134:434-40
The vomiting infant (Rosh et al) (Letter); (Cohen) (Letter); (Frush et al) (Reply). 1999;134:662-3
Infant, low birth weight
Effect of polyethylene occlusive skin wrapping on heat loss in very low birth weight infants at delivery: a randomized trial (Vohra et al). 1999;134:547-51
Effect of pulsed dexamethasone therapy on tolerance of intravenously administered lipids in extremely low birth weight infants (Sentipal-Walerius et al). 1999;134:229-32 (CLO)
A randomized, double-blind, placebo-controlled trial of prophylactic recombinant human granulocyte-macrophage colony–stimulating factor to reduce nosocomial infections in very low birth weight neonates (Cairo et al). 1999;134:64-70
Randomized trial of "slow" versus "fast" feed advancements on the incidence of necrotizing enterocolitis in very low birth weight infants (Rayyis et al). 1999;134:293-7
Thermal management of the low birth weight infant: a cornerstone of neonatology (Narendran and Hoath). 1999;134:529-31 (Editorial)
Infant, newborn
Measurement of bone mineral content (Picaud et al) (Letter); (Namgung and Tsang) (Reply). 1999;134:125-6
A randomized, double-blind, placebo-controlled trial of prophylactic recombinant human granulocyte-macrophage colony–stimulating factor to reduce nosocomial infections in very low birth weight neonates (Cairo et al). 1999;134:64-70
Rebound bilirubin—bounces back (Narchi) (Letter); (Yetman) (Reply). 1999;134:796
Scrutinize the question (Ahlfors) (Letter); (Robertson and Karp) (Reply). 1999;134:659
Thermal management of the low birth weight infant: a cornerstone of neonatology (Narendran and Hoath). 1999;134:529-31 (Editorial)
Infant, newborn, diseases
Advantages of fentanyl over morphine in analgesia for ventilated newborn infants after birth: a randomized trial (Saarenmaa et al). 1999;134:144-50
Congenital mesoblastic nephroma: a rare cause of perinatal anemia (Willert et al). 1999;134:248 (Insights)
Delayed adaptation of the pulmonary hemodynamics in infants with mild to moderate meconium aspiration syndrome (Korhonen et al). 1999;134:355-7 (CLO)
Do sick newborn infants benefit from participation in a randomized clinical trial? (Schmidt et al). 1999;134:151-5
The epidemiology of clinical neonatal seizures in Newfoundland: a population-based study (Ronen et al). 1999;134:71-5
Etidronate therapy for hypercalcemia in subcutaneous fat necrosis of the newborn (Rice and Rivkees). 1999;134:349-51 (CLO)
Expanding role of bisphosphonate therapy in children (Shoemaker). 1999;134:264-7 (Editorial)
Failure of intravenously administered immunoglobulin in the treatment of neonatal myasthenia gravis (Tagher et al). 1999;134:233-5 (CLO)
Five-year follow-up of neonates with reconstructed right common carotid arteries after extracorporeal membrane oxygenation (Desai et al). 1999;134:428-33
Gilbert's syndrome is a contributory factor in prolonged unconjugated hyperbilirubinemia of the newborn (Monaghan et al). 1999;134:441-6
Hemodynamic observations in a newborn with Parkes-Weber syndrome (Berger and Caduff). 1999;134:513 (Insights)
Hypertrophic cardiomyopathy in a newborn infant (Gottesman et al). 1999;134:114-8 (Grand rounds)
The "inclusion benefit" in clinical trials (Lantos). 1999;134:130-1 (Editorial)
Increased TSH levels in neonates with congenital malformations (Narchi and Kulaylat). 1999;134:252-3 (Letter)
Long-term effects of neonatal hypoglycemia on brain growth and psychomotor development in small-for-gestational-age preterm infants (Duvanel et al). 1999;134:492-8
Narcotic analgesia for ventilated newborns: Are placebo-controlled trials ethical and necessary? (Kennedy and Tyson). 1999;134:127-9 (Editorial)
Neonatal effects of maternal consumption of blue cohosh (Wright) (Letter); (Jones) (Reply). 1999;134:384-5
Neonatal hypoglycemia: a little goes a long way (Cowett). 1999;134:389-91 (Editorial)
Neonatal onset ornithine transcarbamylase deficiency: a retrospective analysis (Maestri et al). 1999;134:268-72
The neonatal presentation of Prader-Willi syndrome revisited (Miller et al). 1999;134:226-8 (CLO)
NO effect on hemostasis (Cheung et al) (Letter); (George and Segar) (Reply). 1999;134:383-4
Predictors of intracranial hemorrhage during neonatal extracorporeal membrane oxygenation (Hardart and Fackler). 1999;134:156-9
Preferential pharyngeal colonization of methicillin-resistant *Staphylococcus aureus* in infants (Hayakawa et al). 1999;134:252 (Letter)

Prognostic significance of cerebrospinal fluid cyclic adenosine monophosphate in neonatal asphyxia (Pourcyrous et al). 1999; 134:90-6
Pseudoscurvy caused by copper deficiency (Hoyle et al). 1999; 134:379 (Insights)
Significance of genetic testing for paternal uniparental disomy of chromosome 6 in neonatal diabetes mellitus (Christian et al). 1999; 134:42-6
Transient hypokalemic metabolic alkalosis in a newborn mimicking Bartter's syndrome (Voyame et al). 1999;134:794 (Letter)
Transient neonatal cholestasis and perinatal asphyxia (Vajro et al). 1999;134:795 (Letter)
Treatment of urea cycle disorders (Thoene). 1999;134:255-6 (Editorial)
True knot in an umbilical venous catheter (Pérez-Martínez et al). 1999;134:113 (Insights)
U-P what? (Hall). 1999;134:9-10 (Editorial)
Vitamin E for ROP (Zamora and Maret) (Letter); (Raju et al) (Reply). 1999;134:249

Infant, premature
Erythropoietin and iron therapy for preterm infants (Vento et al) (Letter); (Kumar) (Letter); (Maier et al) (Reply). 1999;134:520-2
Failure to detect preterm infants at risk of hypoglycemia before discharge (Hume et al). 1999;134:499-502 (CLO)
Head turning and face-down positioning in prone-sleeping premature infants (Constantin et al). 1999;134:558-62
Short versus prolonged indomethacin therapy for patent ductus arteriosus in preterm infants (Tammela et al). 1999;134:552-7

Infant, premature, diseases
Classifying brain damage in preterm infants (Paneth). 1999;134:527-9 (Editorial)
Hypothyroxinemia of prematurity and the risk of cerebral white matter damage (Leviton et al). 1999;134:706-11
Single-dose dexamethasone treatment of hypotension in preterm infants (Gaissmaier and Pohlandt). 1999;134:701-5
White matter disorders of prematurity: association with intraventricular hemorrhage and ventriculomegaly (Kuban et al). 1999;134:539-46

Infant, small for gestational age
Long-term effects of neonatal hypoglycemia on brain growth and psychomotor development in small-for-gestational-age preterm infants (Duvanel et al). 1999;134:492-8
Neonatal hypoglycemia: a little goes a long way (Cowett). 1999; 134:389-91 (Editorial)

Infant food
Soy allergy in infants and children with IgE-associated cow's milk allergy (Zeiger et al). 1999;134:614-22

Infarction
Prothrombin G20210A mutation in a child with spinal cord infarction (Young et al). 1999;134:777-9 (CLO)

Inflammation
Interferons and cerebral palsy (Grether et al). 1999;134:324-32

Inflammatory bowel diseases
Serologic testing for inflammatory bowel disease (Hoffenberg et al). 1999;134:447-52

Infusions, intravenous
Effect of pulsed dexamethasone therapy on tolerance of intravenously administered lipids in extremely low birth weight infants (Sentipal-Walerius et al). 1999;134:229-32 (CLO)
The "two bag system" for variable intravenous dextrose and fluid administration: benefits in diabetic ketoacidosis management (Grimberg et al). 1999;134:376-8 (CLO)

Inhaled administration; *see* Administration, inhalation

Insights
Insights. 1999;134:97-8, 113, 248, 379, 513, 658, 793

Insurance, health, reimbursement
Barriers to the treatment of childhood obesity: a call to action (Dietz and Nelson). 1999;134:535-6 (Editorial)
Insurance reimbursement for the treatment of obesity in children (Tershakovec et al). 1999;134:573-8

Intelligence tests
Diagnosing with both sides of the brain (Accardo). 1999;134:142-3 (Editorial)
Psychoeducational profile of the 22q11.2 microdeletion: a complex pattern (Moss et al). 1999;134:193-8

Interferon alfa-2a
Spastic diplegia and interferon (Deb et al) (Letter); (Barlow et al) (Reply). 1999;134:382

Interferons
Interferons and cerebral palsy (Grether et al). 1999;134:324-32

Intestinal diseases
Pneumatosis intestinale in childhood (Barton) (Letter); (Tang and Williams) (Reply). 1999;134:124-5

Intestinal obstruction
Clinical pathologic correlation: a 3-year-old boy with cystic fibrosis and intestinal obstruction (Lewis et al). 1999;134:514-9 (Grand rounds)

Intracranium; *see* Head

Intrauterine growth retardation; *see* Fetal growth retardation

Intraventricular hemorrhage; *see* Hemorrhage

Iron
Erythropoietin and iron therapy for preterm infants (Vento et al) (Letter); (Kumar) (Letter); (Maier et al) (Reply). 1999;134:520-2

J

Japan
The pediatric growth curve as a cancer research tool (Blatt et al). 1999;134:138-40 (Editorial)
Rapid somatic growth after birth in children with neuroblastoma: a survey of 1718 patients with childhood cancer in Kyushu-Okinawa district (Suminoe et al). 1999;134:178-84
Temporal course of the development of obesity in Japanese school children: a cohort study based on the Keio Study (Sugimori et al). 1999;134:749-54

Jaundice, neonatal
Gilbert's syndrome is a contributory factor in prolonged unconjugated hyperbilirubinemia of the newborn (Monaghan et al). 1999;134:441-6

Joints
Joint distribution at presentation in children with pauciarticular arthritis (Sharma and Sherry). 1999;134:642-3 (CLO)

Juvenile idiopathic arthritis; *see* Arthritis

Juvenile rheumatoid arthritis; *see* Arthritis, juvenile rheumatoid

K

Kabuki syndrome
Phenotypic spectrum and management issues in Kabuki syndrome (Kawame et al). 1999;134:480-5

Kawasaki disease; *see* Mucocutaneous lymph node syndrome

Kidney
Renal solute load and *potential* renal solute load in infancy (Fomon and Ziegler). 1999;134:11-4

Kidney diseases
Growth during maintenance hemodialysis: impact of enhanced nutrition and clearance (Tom et al). 1999;134:464-71

Kidney neoplasms
Congenital mesoblastic nephroma: a rare cause of perinatal anemia (Willert et al). 1999;134:248 (Insights)

Klebsiella pneumoniae
True knot in an umbilical venous catheter (Pérez-Martínez et al). 1999;134:113 (Insights)

Kyushu-Okinawa; *see* Japan

L

Lactams
Comparison of a β-lactam alone versus β-lactam and an aminoglycoside for pulmonary exacerbation in cystic fibrosis (Smith et al). 1999;134:413-21

Lactates
The importance of cerebrospinal fluid lactate in the evaluation of congenital lactic acidosis (Stacpoole et al). 1999;134:99-102 (CLO)
Lactic acidosis; *see* Acidosis, lactic
Lactobacillus rhamnosus
A placebo-controlled trial of *Lactobacillus* GG to prevent diarrhea in undernourished Peruvian children (Oberhelman et al). 1999;134:15-20
Prevention of diarrhea by the probiotic, *Lactobacillus* GG (DuPont). 1999;134:1-2 (Editorial)
Lactulose
Sources of breath hydrogen in infants (Shulman) (Letter); (Brand-Miller) (Reply). 1999;134:659-61
Landau-Kleffner syndrome
Serum autoantibodies to brain in Landau-Kleffner variant, autism, and other neurologic disorders (Connolly et al). 1999;134:607-13
Language disorders
Serum autoantibodies to brain in Landau-Kleffner variant, autism, and other neurologic disorders (Connolly et al). 1999;134:607-13
Latex
Latex sensitization in spina bifida appears disease-associated (Szépfalusi et al). 1999;134:344-8
Lead
Blood lead concentration and children's anthropometric dimensions in the Third National Health and Nutrition Examination Survey (NHANES III), 1988-1994 (Ballew et al). 1999;134:623-30
Elevated blood lead levels in children are associated with lower erythropoietin concentrations (Liebelt et al). 1999;134:107-9 (CLO)
Learning disorders
Welcome to never-neverland (Cunningham) (Letter); (Freeman and Vining) (Letter); (Accardo) (Reply). 1999;134:524-5
Leg
Hemodynamic observations in a newborn with Parkes-Weber syndrome (Berger and Caduff). 1999;134:513 (Insights)
Leiden mutation; *see* Mutation
Letters
Letters. 1999;134:122-6, 249-54, 382-6, 520-6, 659-64, 794-8
Leukemia, lymphocytic
Changes in adhesion molecule expression on lymphoblasts during acute lymphoblastic leukemia treatment (De Rossi). 1999;134:525-6 (Letter)
Leukemia, myelomonocytic, chronic
Growth hormone therapy in Noonan syndrome (Cianfarani) (Letter); (Romano) (Reply). 1999;134:385-6
Leukocyte disorders
Leukocyte adhesion deficiency II syndrome, a generalized defect in fucose metabolism (Marquardt et al). 1999;134:681-8
Leukomalacia, periventricular
Classifying brain damage in preterm infants (Paneth). 1999;134:527-9 (Editorial)
Early detection of periventricular leukomalacia by diffusion-weighted magnetic resonance imaging techniques (Inder et al). 1999;134:631-4 (CLO)
Leukotriene D_4; *see* SRS-A
Lipids
Effect of pulsed dexamethasone therapy on tolerance of intravenously administered lipids in extremely low birth weight infants (Sentipal-Walerius et al). 1999;134:229-32 (CLO)
Liver
Alagille syndrome: a nutritional niche for Notch (Sokol). 1999;134:136-8 (Editorial)
Cholestatic jaundice with skin desquamation in a 12-year-old girl (Stutts et al). 1999;134:649-53 (Grand rounds)
Liver, toxic effects
The relationship of hepatotoxic risk factors and liver histology in methotrexate therapy for juvenile rheumatoid arthritis (Hashkes et al). 1999;134:47-52
Liver diseases
Hepatic veno-occlusive disease in ataxia-telangiectasia (Srisiriro-janakorn et al). 1999;134:786-8 (CLO)
Liver transplantation
The long- and short-term outcome of living-donor liver transplantation (Bucuvalas and Ryckman). 1999;134:259-61 (Editorial)
Pediatric liver transplantation with cadaveric or living related donors: comparative results in 90 elective recipients of primary grafts (Reding et al). 1999;134:280-6
Living donors; *see* Tissue donors
Low birth weight infant; *see* Infant, low birth weight
Lung
Comparison of a β-lactam alone versus β-lactam and an aminoglycoside for pulmonary exacerbation in cystic fibrosis (Smith et al). 1999;134:413-21
Delayed adaptation of the pulmonary hemodynamics in infants with mild to moderate meconium aspiration syndrome (Korhonen et al). 1999;134:355-7 (CLO)
Lung, abnormalities
Unilateral total and contralateral partial pulmonary agenesis associated with total anomalous pulmonary venous drainage (Finci et al). 1999;134:510-2 (CLO)
Lung diseases
Lung function in infants with chronic pulmonary disease after severe adenoviral illness (Teper et al). 1999;134:730-3
Lupus coagulation inhibitor
Clinical significance of lupus anticoagulants in children (Male et al). 1999;134:199-205
Lymphoblastic leukemia; *see* Leukemia, lymphocytic
Lymphocytes
Immunoreconstitution after ritonavir therapy in children with human immunodeficiency virus infection involves multiple lymphocyte lineages (Sleasman et al). 1999;134:597-606
Lysinuric protein intolerance
Intermittent hemophagocytic lymphohistiocytosis is a regular feature of lysinuric protein intolerance (Duval et al). 1999;134:236-9 (CLO)

M

Macrophage colony-stimulating factor
A randomized, double-blind, placebo-controlled trial of prophylactic recombinant human granulocyte-macrophage colony–stimulating factor to reduce nosocomial infections in very low birth weight neonates (Cairo et al). 1999;134:64-70
Magnetic resonance imaging
Early detection of periventricular leukomalacia by diffusion-weighted magnetic resonance imaging techniques (Inder et al). 1999;134:631-4 (CLO)
Malignancies; *see* Neoplasms
Malnutrition; *see* Nutrition disorders
Mastoid
Sternocleidomastoid pseudotumor and congenital muscular torticollis in infants: a prospective study of 510 cases (Cheng et al). 1999;134:712-6
Maternal behavior
Neonatal effects of maternal consumption of blue cohosh (Wright) (Letter); (Jones) (Reply). 1999;134:384-5
McCune-Albright syndrome; *see* Fibrous dysplasia, polyostotic
Meconium aspiration
Delayed adaptation of the pulmonary hemodynamics in infants with mild to moderate meconium aspiration syndrome (Korhonen et al). 1999;134:355-7 (CLO)
Medically refractory epilepsy; *see* Epilepsy
Medicine, herbal
Neonatal effects of maternal consumption of blue cohosh (Wright) (Letter); (Jones) (Reply). 1999;134:384-5
Megestrol
Adrenal suppression in children with the human immunodeficiency virus treated with megestrol acetate (Stockheim et al). 1999;134:368-70 (CLO)

MELAS syndrome
Infantile encephalopathy associated with the MELAS A3243G mutation (Sue et al). 1999;134:696-700
Meningitis, bacterial
C-reactive protein is useful in distinguishing Gram stain–negative bacterial meningitis from viral meningitis in children (Sormunen et al). 1999;134:725-9
Meningitis, viral
C-reactive protein is useful in distinguishing Gram stain–negative bacterial meningitis from viral meningitis in children (Sormunen et al). 1999;134:725-9
Meningoencephalitis
Enteroviral meningoencephalitis as a complication of X-linked hyper IgM syndrome (Cunningham et al). 1999;134:584-8
Mesoblastic nephroma
Congenital mesoblastic nephroma: a rare cause of perinatal anemia (Willert et al). 1999;134:248 (Insights)
Metabolism
Discordant diabetic retinopathy in homozygous twins: the importance of good metabolic control (Verougstraete et al). 1999;134:658 (Insights)
Leukocyte adhesion deficiency II syndrome, a generalized defect in fucose metabolism (Marquardt et al). 1999;134:681-8
Transient hypokalemic metabolic alkalosis in a newborn mimicking Bartter's syndrome (Voyame et al). 1999;134:794 (Letter)
Metabolism, inborn errors
Newborn screening for inborn errors of metabolism is going to expand: Are we ready? (Cederbaum and Vilain). 1999;134:666-7 (Editorial)
Outcome of individuals with low-moderate methylmalonic aciduria detected through a neonatal screening program (Sniderman et al). 1999;134:675-80
Methicillin resistance
Preferential pharyngeal colonization of methicillin-resistant *Staphylococcus aureus* in infants (Hayakawa et al). 1999;134:252 (Letter)
Methotrexate
The relationship of hepatotoxic risk factors and liver histology in methotrexate therapy for juvenile rheumatoid arthritis (Hashkes et al). 1999;134:47-52
Methylmalonic acid
Newborn screening for inborn errors of metabolism is going to expand: Are we ready? (Cederbaum and Vilain). 1999;134:666-7 (Editorial)
Outcome of individuals with low-moderate methylmalonic aciduria detected through a neonatal screening program (Sniderman et al). 1999;134:675-80
Microalbuminuria; *see* Albumins
Microdeletion, chromosome; *see* Chromosome abnormalities
Micropenis; *see* Penis, abnormalities
Microvilli
A cluster of microvillous inclusion disease in the Navajo population (Pohl et al). 1999;134:103-6 (CLO)
Middle ear ventilation
Oral prednisolone is an effective adjuvant therapy for acute otitis media with discharge through tympanostomy tubes (Ruohola et al). 1999;134:459-63
Migraine
Cyclic vomiting syndrome and migraine (Fleisher). 1999;134:533-5 (Editorial)
Is cyclic vomiting syndrome related to migraine? (Li et al). 1999;134:567-72
Milk, human
Sources of breath hydrogen in infants (Shulman) (Letter); (Brand-Miller) (Reply). 1999;134:659-61
Milk allergy
Soy allergy in infants and children with IgE-associated cow's milk allergy (Zeiger et al). 1999;134:614-22
Morbidity
Comparison of serum concentrations of α-tocopherol and β-carotene in a cross-sectional sample of obese and nonobese children (NHANES III) (Strauss). 1999;134:160-5
Relative antioxidant deficiency in obese children: A weighty contributor to morbidity? (Lavine). 1999;134:132-3 (Editorial)
Morphine
Advantages of fentanyl over morphine in analgesia for ventilated newborn infants after birth: a randomized trial (Saarenmaa et al). 1999;134:144-50
Narcotic analgesia for ventilated newborns: Are placebo-controlled trials ethical and necessary? (Kennedy and Tyson). 1999;134:127-9 (Editorial)
Mortality
Trend in mortality from respiratory distress syndrome in the United States, 1970-1995 (Lee et al). 1999;134:434-40
Mucocutaneous lymph node syndrome
High-dose aspirin in Kawasaki disease (Shulman) (Letter); (Saphyakhajon and Greene) (Reply). 1999;134:523-4
Muscle hypotonia
The neonatal presentation of Prader-Willi syndrome revisited (Miller et al). 1999;134:226-8 (CLO)
Muscular diseases
Sternocleidomastoid pseudotumor and congenital muscular torticollis in infants: a prospective study of 510 cases (Cheng et al). 1999;134:712-6
Mutation
Factor V Leiden and other hypercoagulable state mutations are not associated with osteonecrosis during or after treatment for pediatric malignancy (Kechli et al). 1999;134:310-4
Infantile encephalopathy associated with the MELAS A3243G mutation (Sue et al). 1999;134:696-700
Prothrombin G20210A mutation in a child with spinal cord infarction (Young et al). 1999;134:777-9 (CLO)
Myasthenia gravis
Failure of intravenously administered immunoglobulin in the treatment of neonatal myasthenia gravis (Tagher et al). 1999;134:233-5 (CLO)
Myotubular myopathy
Medical complications in long-term survivors with X-linked myotubular myopathy (Herman et al). 1999;134:206-14

N

Narcotics
Advantages of fentanyl over morphine in analgesia for ventilated newborn infants after birth: a randomized trial (Saarenmaa et al). 1999;134:144-50
Narcotic analgesia for ventilated newborns: Are placebo-controlled trials ethical and necessary? (Kennedy and Tyson). 1999;134:127-9 (Editorial)
Nausea
Cyclic vomiting syndrome and migraine (Fleisher). 1999;134:533-5 (Editorial)
Is cyclic vomiting syndrome related to migraine? (Li et al). 1999;134:567-72
Navajo Indians; *see* Indians, North American
Nebulizers and vaporizers
Ethical issues of placebo-controlled trials (Ferdman and Church) (Letter); (Shapiro) (Reply). 1999;134:251-2
Necrotizing enterocolitis; *see* Enterocolitis, pseudomembranous
Neonatal screening
Multiple acyl-coenzyme A dehydrogenase deficiency: diagnosis by acyl-carnitine analysis of a 12-year-old newborn screening card (Poplawski et al). 1999;134:764-6 (CLO)
Newborn screening for inborn errors of metabolism is going to expand: Are we ready? (Cederbaum and Vilain). 1999;134:666-7 (Editorial)

Neonatal screening—cont'd
Outcome of individuals with low-moderate methylmalonic aciduria detected through a neonatal screening program (Sniderman et al). 1999;134:675-80
Neonate; *see* Infant, newborn
Neoplasms
Factor V Leiden and other hypercoagulable state mutations are not associated with osteonecrosis during or after treatment for pediatric malignancy (Kechli et al). 1999;134:310-4
Increased incidence of cancer in patients with cartilage-hair hypoplasia (Mäkitie et al). 1999;134:315-8
Malignancies in children who initially present with rheumatic complaints (Cabral and Tucker). 1999;134:53-7
The pediatric growth curve as a cancer research tool (Blatt et al). 1999;134:138-40 (Editorial)
Rapid somatic growth after birth in children with neuroblastoma: a survey of 1718 patients with childhood cancer in Kyushu-Okinawa district (Suminoe et al). 1999;134:178-84
Sternocleidomastoid pseudotumor and congenital muscular torticollis in infants: a prospective study of 510 cases (Cheng et al). 1999;134:712-6
Transdermal fentanyl in children with cancer pain: feasibility, tolerability, and pharmacokinetic correlates (Collins et al). 1999;134:319-23
The Netherlands
Infant Hib vaccination and herd immunity (Rushdy et al). 1999;134:253-4 (Letter)
Neural tube defects
Dorsal dermal sinus and dermoid cysts in occult spinal dysraphism (Hattori et al). 1999;134:793 (Insights)
Neuroblastoma
The pediatric growth curve as a cancer research tool (Blatt et al). 1999;134:138-40 (Editorial)
Rapid somatic growth after birth in children with neuroblastoma: a survey of 1718 patients with childhood cancer in Kyushu-Okinawa district (Suminoe et al). 1999;134:178-84
Neurofibromatosis 1
Social and emotional problems in children with neurofibromatosis type 1: evidence and proposed interventions (Johnson et al). 1999;134:767-72 (CLO)
Neurologic manifestations
Serum autoantibodies to brain in Landau-Kleffner variant, autism, and other neurologic disorders (Connolly et al). 1999;134:607-13
Newborn infant; *see* Infant, newborn
Newfoundland
The epidemiology of clinical neonatal seizures in Newfoundland: a population-based study (Ronen et al). 1999;134:71-5
Nitric oxide
Multicenter randomized controlled trial of the effects of inhaled nitric oxide therapy on gas exchange in children with acute hypoxemic respiratory failure (Dobyns et al). 1999;134:406-12
Nitric oxide in acute hypoxic respiratory failure: from the bench to the bedside and back again (Bohn). 1999;134:387-9 (Editorial)
NO effect on hemostasis (Cheung et al) (Letter); (George and Segar) (Reply). 1999;134:383-4
Nitroglycerin
Topical nitroglycerin and pain in purpura fulminans (Meyer et al). 1999;134:639-41 (CLO)
Nodular adrenal hyperplasia; *see* Adrenal hyperplasia
Nodulocystic acne; *see* Acne vulgaris
Noonan syndrome
Growth hormone therapy in Noonan syndrome (Cianfarani) (Letter); (Romano) (Reply). 1999;134:385-6
Nosocomial infection; *see* Cross infection
Nutrition
Alagille syndrome: a nutritional niche for Notch (Sokol). 1999;134:136-8 (Editorial)
Blood lead concentration and children's anthropometric dimensions in the Third National Health and Nutrition Examination Survey (NHANES III), 1988-1994 (Ballew et al). 1999;134:623-30
Growth during maintenance hemodialysis: impact of enhanced nutrition and clearance (Tom et al). 1999;134:464-71
Growth, nutritional status, body composition, and energy expenditure in prepubertal children with Alagille syndrome (Wasserman et al). 1999;134:172-7
Nutrition disorders
Growth deficiency and malnutrition in Bloom syndrome (Keller et al). 1999;134:472-9

O

Obesity
Barriers to the treatment of childhood obesity: a call to action (Dietz and Nelson). 1999;134:535-6 (Editorial)
BMI: Does it really reflect body fat mass? (Widhalm and Schönegger) (Letter); (Pietrobelli et al) (Reply). 1999;134:522-3
Comparison of serum concentrations of α-tocopherol and β-carotene in a cross-sectional sample of obese and nonobese children (NHANES III) (Strauss). 1999;134:160-5
Insurance reimbursement for the treatment of obesity in children (Tershakovec et al). 1999;134:573-8
Relative antioxidant deficiency in obese children: A weighty contributor to morbidity? (Lavine). 1999;134:132-3 (Editorial)
Temporal course of the development of obesity in Japanese school children: a cohort study based on the Keio Study (Sugimori et al). 1999;134:749-54
Oligosaccharides
Sources of breath hydrogen in infants (Shulman) (Letter); (Brand-Miller) (Reply). 1999;134:659-61
Oral administration; *see* Administration, oral
Oral hygiene
Halitosis in children (Amir et al). 1999;134:338-43
Ornithine
Neonatal onset ornithine transcarbamylase deficiency: a retrospective analysis (Maestri et al). 1999;134:268-72
Treatment of urea cycle disorders (Thoene). 1999;134:255-6 (Editorial)
Orofacial cleft; *see* Cleft lip; Cleft palate
Osteonecrosis
Factor V Leiden and other hypercoagulable state mutations are not associated with osteonecrosis during or after treatment for pediatric malignancy (Kechli et al). 1999;134:310-4
Otitis media
Oral prednisolone is an effective adjuvant therapy for acute otitis media with discharge through tympanostomy tubes (Ruohola et al). 1999;134:459-63

P

Pain
Pain and the Guillain-Barré syndrome in children under 6 years old (Nguyen et al). 1999;134:773-6 (CLO)
Topical nitroglycerin and pain in purpura fulminans (Meyer et al). 1999;134:639-41 (CLO)
Transdermal fentanyl in children with cancer pain: feasibility, tolerability, and pharmacokinetic correlates (Collins et al). 1999;134:319-23
Parenteral nutrition, home
Cysteine supplementation results in normalization of plasma taurine concentrations in children receiving home parenteral nutrition (Helms et al). 1999;134:358-61 (CLO)
Parkes-Weber syndrome
Hemodynamic observations in a newborn with Parkes-Weber syndrome (Berger and Caduff). 1999;134:513 (Insights)
Patent ductus arteriosus; *see* Ductus arteriosus, patent
Paternal uniparental disomy; *see* Chromosome abnormalities
Patient discharge
Failure to detect preterm infants at risk of hypoglycemia before discharge (Hume et al). 1999;134:499-502 (CLO)

Pauciarticular arthritis; *see* Arthritis
Penis, abnormalities
Congenital hypogonadotropic hypogonadism and micropenis: effect of testosterone treatment on adult penile size—why sex reversal is not indicated (Bin-Abbas et al). 1999;134:579-83
Should boys with micropenis be reared as girls? (Van Wyk and Calikoglu). 1999;134:537-8 (Editorial)
Pentoxifylline
Behçet's disease in children (Yasui et al) (Letter); (Koné-Paut) (Reply). 1999;134:249-51
Perinatal asphyxia; *see* Asphyxia neonatorum
Periventricular leukomalacia; *see* Leukomalacia, periventricular
Peru
A placebo-controlled trial of *Lactobacillus* GG to prevent diarrhea in undernourished Peruvian children (Oberhelman et al). 1999;134:15-20
Prevention of diarrhea by the probiotic, *Lactobacillus* GG (DuPont). 1999;134:1-2 (Editorial)
Pharmacokinetics
The pharmacokinetics of ibuprofen suspension, chewable tablets, and tablets in children with cystic fibrosis (Scott et al). 1999;134:58-63
Pharynx
Preferential pharyngeal colonization of methicillin-resistant *Staphylococcus aureus* in infants (Hayakawa et al). 1999;134:252 (Letter)
Phenotype
Influence of severe combined immunodeficiency phenotype on the outcome of HLA non-identical, T-cell–depleted bone marrow transplantation—a retrospective European survey from the European Group for Bone Marrow Transplantation and the European Society for Immunodeficiency (Bertrand et al). 1999;134:740-8
Phenotypic spectrum and management issues in Kabuki syndrome (Kawame et al). 1999;134:480-5
Phototherapy
Rebound bilirubin—bounces back (Narchi) (Letter); (Yetman) (Reply). 1999;134:796
Physical fitness
Growth hormone improves body composition, fat utilization, physical strength and agility, and growth in Prader-Willi syndrome: a controlled study (Carrel et al). 1999;134:215-21
Plasma
Cysteine supplementation results in normalization of plasma taurine concentrations in children receiving home parenteral nutrition (Helms et al). 1999;134:358-61 (CLO)
Platelet aggregation
NO effect on hemostasis (Cheung et al) (Letter); (George and Segar) (Reply). 1999;134:383-4
Pneumatosis intestinale
Pneumatosis intestinale in childhood (Barton) (Letter); (Tang and Williams) (Reply). 1999;134:124-5
Polychlorinated biphenyls
Effects of environmental exposure to polychlorinated biphenyls and dioxins on cognitive abilities in Dutch children at 42 months of age (Patandin et al). 1999;134:33-41
Environmental chemicals and child development (Dietrich). 1999;134:7-9 (Editorial)
Polyethylenes
Effect of polyethylene occlusive skin wrapping on heat loss in very low birth weight infants at delivery: a randomized trial (Vohra et al). 1999;134:547-51
Thermal management of the low birth weight infant: a cornerstone of neonatology (Narendran and Hoath). 1999;134:529-31 (Editorial)
Polyradiculoneuritis
Pain and the Guillain-Barré syndrome in children under 6 years old (Nguyen et al). 1999;134:773-6 (CLO)
Postsplenectomy; *see* Splenectomy
Powders
Ethical issues of placebo-controlled trials (Ferdman and Church) (Letter); (Shapiro) (Reply). 1999;134:251-2
Prader-Willi syndrome
Body fat determined by skinfold measurements is elevated despite underweight in infants with Prader-Labhart-Willi syndrome (Eiholzer et al). 1999;134:222-5 (CLO)
Growth hormone improves body composition, fat utilization, physical strength and agility, and growth in Prader-Willi syndrome: a controlled study (Carrel et al). 1999;134:215-21
The neonatal presentation of Prader-Willi syndrome revisited (Miller et al). 1999;134:226-8 (CLO)
Prednisolone
Oral prednisolone is an effective adjuvant therapy for acute otitis media with discharge through tympanostomy tubes (Ruohola et al). 1999;134:459-63
Prepuberty; *see* Puberty
Preterm infant; *see* Infant, premature
Prognosis
Prognostic significance of cerebrospinal fluid cyclic adenosine monophosphate in neonatal asphyxia (Pourcyrous et al). 1999;134:90-6
Prone position
Head turning and face-down positioning in prone-sleeping premature infants (Constantin et al). 1999;134:558-62
Prophylaxis
A randomized, double-blind, placebo-controlled trial of prophylactic recombinant human granulocyte-macrophage colony–stimulating factor to reduce nosocomial infections in very low birth weight neonates (Cairo et al). 1999;134:64-70
Vitamin E for ROP (Zamora and Maret) (Letter); (Raju et al) (Reply). 1999;134:249
Propionate
Effect on growth of inhaled steroid therapy (Brand and Roorda). 1999;134:253 (Letter)
Protein deficiency
Treatment of ataxia in isolated vitamin E deficiency caused by α-tocopherol transfer protein deficiency (Schuelke et al). 1999;134:240-4 (CLO)
Protein-glutamine gamma-glutamyltransferase
IgA antibodies to tissue transglutaminase: an effective diagnostic test for celiac disease (Troncone et al). 1999;134:166-71
Tissue transglutaminase: The Holy Grail for the diagnosis of celiac disease, at last? (Fasano). 1999;134:134-5 (Editorial)
Prothrombin
Clinical significance of lupus anticoagulants in children (Male et al). 1999;134:199-205
Prothrombin G20210A mutation in a child with spinal cord infarction (Young et al). 1999;134:777-9 (CLO)
Pruritus
Respiratory chain complex in deficiency with pruritus: a novel vitamin responsive clinical feature (Mowat et al). 1999;134:352-4 (CLO)
Pseudotumors; *see* Neoplasms
Psychoeducational profile; *see* Educational measurement; Intelligence tests
Psychomotor performance
Long-term effects of neonatal hypoglycemia on brain growth and psychomotor development in small-for-gestational-age preterm infants (Duvanel et al). 1999;134:492-8
Neonatal hypoglycemia: a little goes a long way (Cowett). 1999;134:389-91 (Editorial)
Puberty
Alagille syndrome: a nutritional niche for Notch (Sokol). 1999;134:136-8 (Editorial)
Estrogen levels in girls with premature thelarche compared with normal prepubertal girls as determined by an ultrasensitive recombinant cell bioassay (Klein et al). 1999;134:190-2
Excessive infantile growth and early pubertal growth spurt: typical features in patients with aspartylglycosaminuria (Arvio et al). 1999;134:761-3 (CLO)
Growth, nutritional status, body composition, and energy expenditure in prepubertal children with Alagille syndrome (Wasserman et al). 1999;134:172-7

Longitudinal evaluation of growth, puberty, and bone maturation in children with Williams syndrome (Partsch et al). 1999;134:82-9
Maternal uniparental disomy 14 as a cause of intrauterine growth retardation and early onset of puberty (Fokstuen et al). 1999;134:689-95
Spontaneous growth and bone age development in a patient with 17α-hydroxylase deficiency: evidence of the role of sexual steroids in prepubertal bone maturation (Mayer et al). 1999;134:371-5 (CLO)

Pulmonary agenesis; *see* Lung, abnormalities

Pulmonary valve stenosis
Pulmonary stenosis: defect-specific diagnostic accuracy of heart murmurs in children (Danford et al). 1999;134:76-81

Pulmonary veins
Unilateral total and contralateral partial pulmonary agenesis associated with total anomalous pulmonary venous drainage (Finci et al). 1999;134:510-2 (CLO)

Purpura
Topical nitroglycerin and pain in purpura fulminans (Meyer et al). 1999;134:639-41 (CLO)

Purpura, Henoch-Schönlein
The swollen, scarlet scrotum: an uncommon manifestation of a common disorder (Gunasekaran and Hassall). 1999;134:97-8 (Insights)

Purpura, thrombocytopenic
Immune thrombocytopenic purpura: Why treat? (Nugent). 1999;134:3-4 (Editorial)
Treatment of childhood acute immune thrombocytopenic purpura with anti-D immune globulin or pooled immune globulin (Tarantino et al). 1999;134:21-6

Pyridoxine
Demographics and diagnosis of pyridoxine-dependent seizures (Ebinger et al) (Letter); (Gospe) (Reply). 1999;134:795-6

R

Race
Race, ethnicity, and genetics (Wack) (Letter); (Hamosh) (Reply); (Harris) (Reply). 1999;134:122-3

Recombinant cell bioassay; *see* Biological assay

Renal solute load; *see* Kidney

Research
The pediatric growth curve as a cancer research tool (Blatt et al). 1999;134:138-40 (Editorial)

Respiration
Respiratory effort with airway closure during mixed apneas (Finer and Barrington) (Letter); (Idiong and Rigatto) (Reply). 1999;134:796-8

Respiration, artificial
Advantages of fentanyl over morphine in analgesia for ventilated newborn infants after birth: a randomized trial (Saarenmaa et al). 1999;134:144-50
Narcotic analgesia for ventilated newborns: Are placebo-controlled trials ethical and necessary? (Kennedy and Tyson). 1999;134:127-9 (Editorial)

Respiratory chain; *see* Electron transport

Respiratory distress syndrome
Trend in mortality from respiratory distress syndrome in the United States, 1970-1995 (Lee et al). 1999;134:434-40

Respiratory insufficiency
Multicenter randomized controlled trial of the effects of inhaled nitric oxide therapy on gas exchange in children with acute hypoxemic respiratory failure (Dobyns et al). 1999;134:406-12
Nitric oxide in acute hypoxic respiratory failure: from the bench to the bedside and back again (Bohn). 1999;134:387-9 (Editorial)

Retinal diseases
Chorioretinal lesions in patients and carriers of chronic granulomatous disease (Goldblatt et al). 1999;134:780-3 (CLO)

Retinopathy of prematurity
Vitamin E for ROP (Zamora and Maret) (Letter); (Raju et al) (Reply). 1999;134:249

Rheumatic diseases
Malignancies in children who initially present with rheumatic complaints (Cabral and Tucker). 1999;134:53-7

Rheumatic fever
Inefficacy of a 3-day course of azithromycin in preventing acute rheumatic fever after group A streptococcal infection (scarlet fever) in an 8-year-old child (Ghirga et al). 1999;134:123-4 (Letter)

Ritonavir
Immunoreconstitution after ritonavir therapy in children with human immunodeficiency virus infection involves multiple lymphocyte lineages (Sleasman et al). 1999;134:597-606

ROP; *see* Retinopathy of prematurity

S

Saccharomyces cerevisiae
Serologic testing for inflammatory bowel disease (Hoffenberg et al). 1999;134:447-52

Scarlet fever
Inefficacy of a 3-day course of azithromycin in preventing acute rheumatic fever after group A streptococcal infection (scarlet fever) in an 8-year-old child (Ghirga et al). 1999;134:123-4 (Letter)

Scrotum
The swollen, scarlet scrotum: an uncommon manifestation of a common disorder (Gunasekaran and Hassall). 1999;134:97-8 (Insights)

Scurvy
Pseudoscurvy caused by copper deficiency (Hoyle et al). 1999;134:379 (Insights)

Seasons
Measurement of bone mineral content (Picaud et al) (Letter); (Namgung and Tsang) (Reply). 1999;134:125-6

Seizures
Demographics and diagnosis of pyridoxine-dependent seizures (Ebinger et al) (Letter); (Gospe) (Reply). 1999;134:795-6
The effect of hypoglycemic seizures on cognitive function in children with diabetes: a 7-year prospective study (Rovet and Ehrlich). 1999;134:503-6 (CLO)
The epidemiology of clinical neonatal seizures in Newfoundland: a population-based study (Ronen et al). 1999;134:71-5
Intensive diabetes therapy in childhood: Is it achievable? Is it desirable? Is it safe? (Becker and Ryan). 1999;134:392-4 (Editorial)
Left vagal nerve stimulation in children with medically refractory epilepsy (Murphy and Pediatric VNS Study Group). 1999;134:563-6
Serum autoantibodies to brain in Landau-Kleffner variant, autism, and other neurologic disorders (Connolly et al). 1999;134:607-13
Vagal nerve stimulation for treatment of children with epilepsy (Camfield and Camfield). 1999;134:532-3 (Editorial)

Sensitization; *see* Hypersensitivity

Severe combined immunodeficiency
Influence of severe combined immunodeficiency phenotype on the outcome of HLA non-identical, T-cell–depleted bone marrow transplantation—a retrospective European survey from the European Group for Bone Marrow Transplantation and the European Society for Immunodeficiency (Bertrand et al). 1999;134:740-8

Sex
Should boys with micropenis be reared as girls? (Van Wyk and Calikoglu). 1999;134:537-8 (Editorial)

Sex reversal, gonadal
Congenital hypogonadotropic hypogonadism and micropenis: effect of testosterone treatment on adult penile size—why sex reversal is not indicated (Bin-Abbas et al). 1999;134:579-83
Should boys with micropenis be reared as girls? (Van Wyk and Calikoglu). 1999;134:537-8 (Editorial)

Sickle cell anemia; *see* Anemia, sickle cell

Skin
Cholestatic jaundice with skin desquamation in a 12-year-old girl (Stutts et al). 1999;134:649-53 (Grand rounds)

Effect of polyethylene occlusive skin wrapping on heat loss in very low birth weight infants at delivery: a randomized trial (Vohra et al). 1999;134:547-51
Thermal management of the low birth weight infant: a cornerstone of neonatology (Narendran and Hoath). 1999;134:529-31 (Editorial)
Toddler-age nodulocystic acne (Mengesha and Hansen). 1999;134:644-8 (CLO)

Skin ulcer
Fixed drug eruptions in children (Morelli et al). 1999;134:365-7 (CLO)

Skinfold thickness
Body fat determined by skinfold measurements is elevated despite underweight in infants with Prader-Labhart-Willi syndrome (Eiholzer et al). 1999;134:222-5 (CLO)

Sleep
Head turning and face-down positioning in prone-sleeping premature infants (Constantin et al). 1999;134:558-62
Sleep characteristics in children with Down syndrome (Levanon et al). 1999;134:755-60

Small for gestational age infant; *see* Infant, small for gestational age

Social behavior
Social and emotional problems in children with neurofibromatosis type 1: evidence and proposed interventions (Johnson et al). 1999;134:767-72 (CLO)

Somatic growth; *see* Growth

Somatotropin
Growth hormone improves body composition, fat utilization, physical strength and agility, and growth in Prader-Willi syndrome: a controlled study (Carrel et al). 1999;134:215-21
Growth hormone therapy in Noonan syndrome (Cianfarani) (Letter); (Romano) (Reply). 1999;134:385-6

Sorbitol
Pneumatosis intestinale in childhood (Barton) (Letter); (Tang and Williams) (Reply). 1999;134:124-5

Soybeans
Soy allergy in infants and children with IgE-associated cow's milk allergy (Zeiger et al). 1999;134:614-22

Spastic diplegia; *see* Diplegia

Spina bifida occulta
Dorsal dermal sinus and dermoid cysts in occult spinal dysraphism (Hattori et al). 1999;134:793 (Insights)

Spinal cord
Prothrombin G20210A mutation in a child with spinal cord infarction (Young et al). 1999;134:777-9 (CLO)

Spinal dysraphism
Latex sensitization in spina bifida appears disease-associated (Szépfalusi et al). 1999;134:344-8

Spleen
Splenic abscess in a patient with type 3 Gaucher's disease receiving enzyme replacement therapy (Maclean and Wilson). 1999;134:245-7 (CLO)

Splenectomy
Postsplenectomy course in homozygous sickle cell disease (Wright et al). 1999;134:304-9

SRS-A
The leukotriene D_4-receptor antagonist zafirlukast attenuates exercise-induced bronchoconstriction in children (Pearlman et al). 1999;134:273-9
Leukotriene receptor antagonist treatment of asthma: Are we there yet? (Keresmar). 1999;134:256-9 (Editorial)

Staphylococcus aureus
Preferential pharyngeal colonization of methicillin-resistant *Staphylococcus aureus* in infants (Hayakawa et al). 1999;134:252 (Letter)

Status epilepticus
Cat-scratch disease encephalopathy: a cause of status epilepticus in school-aged children (Armengol and Hendley). 1999;134:635-8 (CLO)

Sternum
Sternocleidomastoid pseudotumor and congenital muscular torticollis in infants: a prospective study of 510 cases (Cheng et al). 1999;134:712-6

Steroids
Effect on growth of inhaled steroid therapy (Brand and Roorda). 1999;134:253 (Letter)
Efficacy and safety of high-dose inhaled steroids in children with asthma: a comparison of fluticasone propionate with budesonide (Ferguson et al). 1999;134:422-7
Spontaneous growth and bone age development in a patient with 17α-hydroxylase deficiency: evidence of the role of sexual steroids in prepubertal bone maturation (Mayer et al). 1999;134:371-5 (CLO)

Streptococcus pyogenes
Inefficacy of a 3-day course of azithromycin in preventing acute rheumatic fever after group A streptococcal infection (scarlet fever) in an 8-year-old child (Ghirga et al). 1999;134:123-4 (Letter)

Substance abuse
Maternal periconceptional alcohol consumption and risk for orofacial clefts (Shaw and Lammer). 1999;134:298-303

Sudden infant death
Head turning and face-down positioning in prone-sleeping premature infants (Constantin et al). 1999;134:558-62

Survival
Medical complications in long-term survivors with X-linked myotubular myopathy (Herman et al). 1999;134:206-14

Suspensions
The pharmacokinetics of ibuprofen suspension, chewable tablets, and tablets in children with cystic fibrosis (Scott et al). 1999;134:58-63

T

T-lymphocytes
Influence of severe combined immunodeficiency phenotype on the outcome of HLA non-identical, T-cell–depleted bone marrow transplantation—a retrospective European survey from the European Group for Bone Marrow Transplantation and the European Society for Immunodeficiency (Bertrand et al). 1999;134:740-8

Tablets
The pharmacokinetics of ibuprofen suspension, chewable tablets, and tablets in children with cystic fibrosis (Scott et al). 1999;134:58-63

Taurine
Cysteine supplementation results in normalization of plasma taurine concentrations in children receiving home parenteral nutrition (Helms et al). 1999;134:358-61 (CLO)

Testosterone
Congenital hypogonadotropic hypogonadism and micropenis: effect of testosterone treatment on adult penile size—why sex reversal is not indicated (Bin-Abbas et al). 1999;134:579-83
Should boys with micropenis be reared as girls? (Van Wyk and Calikoglu). 1999;134:537-8 (Editorial)

Thelarche; *see* Breast

Thermal management; *see* Body temperature regulation

Thrombocytopenia
Clinical significance of lupus anticoagulants in children (Male et al). 1999;134:199-205

Thrombocytopenic purpura; *see* Purpura, thrombocytopenic

Thrombosis
Clinical significance of lupus anticoagulants in children (Male et al). 1999;134:199-205
Spontaneous arterial thrombosis in children (Streif et al). 1999;134:110-2 (CLO)

Thyrotropin
Increased TSH levels in neonates with congenital malformations (Narchi and Kulaylat). 1999;134:252-3 (Letter)

Thyroxine
Hypothyroxinemia of prematurity and the risk of cerebral white matter damage (Leviton et al). 1999;134:706-11

Tissue donors
The long- and short-term outcome of living-donor liver transplantation (Bucuvalas and Ryckman). 1999;134:259-61 (Editorial)

Pediatric liver transplantation with cadaveric or living related donors: comparative results in 90 elective recipients of primary grafts (Reding et al). 1999;134:280-6
Tolerance, drug; *see* Drug tolerance
Topical administration; *see* Administration, topical
Torticollis
Sternocleidomastoid pseudotumor and congenital muscular torticollis in infants: a prospective study of 510 cases (Cheng et al). 1999; 134:712-6
Transdermal administration; *see* Administration, cutaneous
Transfer protein deficiency; *see* Protein deficiency
Transglutaminase; *see* Protein-glutamine gamma-glutamyltransferase
Trimethoprim-sulfamethoxazole combination
Fixed drug eruptions in children (Morelli et al). 1999;134:365-7 (CLO)
TSH; *see* Thyrotropin
Twins
Discordant diabetic retinopathy in homozygous twins: the importance of good metabolic control (Verougstraete et al). 1999;134:658 (Insights)
Tympanostomy tubes; *see* Middle ear ventilation
Type 1 diabetes; *see* Diabetes mellitus, insulin-dependent

U

Ubiquinol-cytochrome C reductase
Respiratory chain complex in deficiency with pruritus: a novel vitamin responsive clinical feature (Mowat et al). 1999;134:352-4 (CLO)
Umbilical veins
True knot in an umbilical venous catheter (Pérez-Martínez et al). 1999; 134:113 (Insights)
Underweight; *see* Body weight
Uniparental disomy; *see* Chromosome abnormalities
Urea
Neonatal onset ornithine transcarbamylase deficiency: a retrospective analysis (Maestri et al). 1999;134:268-72
Treatment of urea cycle disorders (Thoene). 1999;134:255-6 (Editorial)
Urine
Renal solute load and *potential* renal solute load in infancy (Fomon and Ziegler). 1999;134:11-4

V

Vaccination
Hepatitis A vaccination in chronic carriers of hepatitis B virus (Nebbia et al). 1999;134:784-5 (CLO)
Infant Hib vaccination and herd immunity (Rushdy et al). 1999;134:253-4 (Letter)
Vagus nerve
Left vagal nerve stimulation in children with medically refractory epilepsy (Murphy and Pediatric VNS Study Group). 1999;134:563-6
Vagal nerve stimulation for treatment of children with epilepsy (Camfield and Camfield). 1999;134:532-3 (Editorial)
Vasculitis
Behçet's disease in children (Yasui et al) (Letter); (Koné-Paut) (Reply). 1999;134:249-51
Ventilation, artificial; *see* Respiration, artificial
Very low birth weight infant; *see* Infant, low birth weight
Viral meningitis; *see* Meningitis, viral
Vitamin E
Comparison of serum concentrations of α-tocopherol and β-carotene in a cross-sectional sample of obese and nonobese children (NHANES III) (Strauss). 1999;134:160-5
Vitamin E for ROP (Zamora and Maret) (Letter); (Raju et al) (Reply). 1999;134:249
Vitamin E deficiency
Relative antioxidant deficiency in obese children: A weighty contributor to morbidity? (Lavine). 1999;134:132-3 (Editorial)
Treatment of ataxia in isolated vitamin E deficiency caused by α-tocopherol transfer protein deficiency (Schuelke et al). 1999;134:240-4 (CLO)
Vitamin K
Respiratory chain complex in deficiency with pruritus: a novel vitamin responsive clinical feature (Mowat et al). 1999;134:352-4 (CLO)
Vomiting
Cyclic vomiting syndrome and migraine (Fleisher). 1999;134:533-5 (Editorial)
Is cyclic vomiting syndrome related to migraine? (Li et al). 1999; 134:567-72
The vomiting infant (Rosh et al) (Letter); (Cohen) (Letter); (Frush et al) (Reply). 1999;134:662-3

W

Water
Renal solute load and *potential* renal solute load in infancy (Fomon and Ziegler). 1999;134:11-4
White matter disorders; *see* Brain damage, chronic
Williams syndrome
Longitudinal evaluation of growth, puberty, and bone maturation in children with Williams syndrome (Partsch et al). 1999;134:82-9

X

X chromosome
Enteroviral meningoencephalitis as a complication of X-linked hyper IgM syndrome (Cunningham et al). 1999;134:584-8
Medical complications in long-term survivors with X-linked myotubular myopathy (Herman et al). 1999;134:206-14

Z

Zafirlukast
The leukotriene D_4-receptor antagonist zafirlukast attenuates exercise-induced bronchoconstriction in children (Pearlman et al). 1999;134: 273-9
Leukotriene receptor antagonist treatment of asthma: Are we there yet? (Keresmar). 1999;134:256-9 (Editorial)
Zidovudine
The effects of zidovudine in the subset of infants infected with human immunodeficiency virus type-1 (Pediatric AIDS Clinical Trials Group Protocol 076) (McSherry et al). 1999;134:717-24
